The presence of algae in swimming pools is objectionable and can be difficult to remove. CLOROX™ Pool&Spa Concentrated Algaecide helps prevent the growth of chlorine-resistant algae, such as mustard and black algae. It also acts as an added defense against algae due to low chlorination periods. Once started, algae greatly increases chlorine demand and the associated increased cost.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FRESHLY FILLED AND/OR ALGAE-FREE SWIMMING POOLS: Add 8 oz of CLOROX™ Pool&Spa Concentrated Algaecide per 10,000 gallons of pool water. Add 2 to 4 oz (per 10,000 gallons) weekly as a maintenance dose to prevent algae growth through the swimming season.

VISIBLE ALGAE GROWTH: Super-chlorinate with a fast-acting chlorinating product (such as CLOROX™ Pool&Spa ShockQuick / 10) to a chlorine reading of 5 ppm. Do not use the pool until the chlorine residual has dropped to 3 ppm. Remove all debris by vacuuming or sweeping and filtering. In order to aid in the removal of the fine particles resulting from the affected algae, use CLOROX™ Pool&Spa Ultra Clarifier. Add an initial dose of 16 oz of CLOROX™ Pool&Spa Concentrated Algaecide per 10,000 gallons of water to rid the water of the remaining chlorine-resistant algae. Thereafter, add 2 to 4 oz (per 10,000 gallons) weekly during swimming season to prevent regrowth of algae.

NOTE: In order to ensure maximum effectiveness of CLOROX™ Pool&Spa Concentrated Algaecide (and all other swimming pool chemicals), always maintain pH at 7.2 to 7.6 and a free-chlorine residual of 1 to 2 ppm. Measure by using a reliable test kit.

STORAGE AND DISPOSAL:

STORAGE: Keep container closed when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame.

CONTAINER DISPOSAL: IF EMPTY: Nonrefillable container. Do not reuse or refill this container. Place in trash collection or offer for recycling if available. **IF PARTLY FILLED:** Call your local solid waste agency for disposal instruction. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Harmful if swallowed or absorbed through the skin. Avoid breathing vapors. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish, aquatic organisms and clams.
