# AQUABAC® (200 G) Mosquito Biolarvicide Granule

## AQUABAC® (200 G) Mosquito Biolarvicide Granule

*AQUABAC (200 G) is a microbial insecticide effective against mosquitoes in a variety of habitats*

**ACTIVE INGREDIENT:**  
*Bacillus thuringiensis* subspecies *israelensis* Strain BMP 144 solids, spores and insecticidal toxins\* 2.88%  
**OTHER INGREDIENTS** 97.14%  
**TOTAL** 100.00%

\*Equivalent to 7,000 International Toxic Units (ITU/mg) (0.091 Billion ITU/pound). **Note:** The percent active ingredient does not indicate product performance and potency measurements are not federally standardized.

KEEP OUT OF REACH OF CHILDREN  
CAUTION

**FIRST AID**

<b>If inhaled</b>	<ul style="list-style-type: none"> <li>Move person to fresh air.</li> <li>If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.</li> <li>Call a poison control center or doctor for treatment advice.</li> </ul>
<b>If on skin or clothing</b>	<ul style="list-style-type: none"> <li>Take off contaminated clothing.</li> <li>Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>Call a poison control center or doctor for treatment advice.</li> </ul>

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

See back panel for additional precautionary statements and directions for use.

EPA Reg. No. 62637-3  
EPA Establishment No.: 9198-OH-1, M, 9198-OH-2, 9198-AL-1A, 9198-PA  
IF Supplement label is first letter used in fun code on bag.

# AQUABAC® (200 G) Mosquito Biolarvicide Granule

## AQUABAC® (200 G) Mosquito Biolarvicide Granule

### PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals CAUTION

Harmful if inhaled or absorbed through skin. Avoid breathing dust. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Mixers / loaders and applicators not in enclosed cabs or aircraft must wear a dust / mist filtering respirator meeting NIOSH standards of at least N-95, R-95 or P-95. Repeated exposure to high concentrations of microbial proteins can cause allergic sensitization.

**Environmental Hazards**  
Do not contaminate water when disposing of equipment washwaters or rinsate. Do not apply directly to treated, finished drinking water reservoirs or drinking water receptacles when the water is intended for human consumption.

**DIRECTIONS FOR USE**  
It is a violation of Federal law to apply this product in a manner inconsistent with its labeling. AQUABAC (200 G) is a highly selective microbial insecticide effective against mosquitos in a variety of habitats. Apply AQUABAC (200 G) to any water sites except treated, finished water reservoirs or drinking water receptacles when the water is intended for human consumption.

**MOSQUITOES:**

Habitat	Rate Required for Control*
Flood water, roadside ditches, irrigation ditches, rice fields, pastures, woodland pools, snowmelt pools, tidal water, salt marshes, catch basins, storm water retention areas, lakes, golf course ponds, irrigation ponds, ornamental zoo ponds, ornamental ponds, ponds, water gardens, greenhouses, nurseries, standing water.....	2.5 -10.0 lbs/acre*

\*When late third and early fourth instar larvae predominate, larval populations are high, or water is heavily polluted and/or algae are prevalent, use 10 - 20 lbs/acre.

**SPECIFIC APPLICATION INSTRUCTIONS:**  
Uniformly apply AQUABAC (200 G) in conventional aerial and ground application equipment, or by hand using a seed spreader or other calibrated application equipment. Use a seven- to fourteen-day interval between applications, except in cases of heavy insect pressure when shorter intervals are needed. Longer periods of mosquito population suppression can result where sufficient numbers of non-target aquatic invertebrate parasites and predators are present, since these invertebrates are not affected by AQUABAC (200 G) and contribute to mosquito population reduction.

Avoiding spray drift at the application site is the responsibility of the applicator. The interaction of many equipment- and weather-related factors determines the potential for spray drift. The applicator and the grower are responsible for considering all these factors when making decisions.

**STORAGE AND DISPOSAL**  
Do not contaminate water, food, or feed by storage and disposal.

**Pesticide Storage:**  
Store in a cool, dry place.

**Pesticide Disposal:**  
Wastes resulting from use of this product must be disposed of on site or at an approved waste disposal facility.

**Container Handling:**  
Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration. Do not burn, unless allowed by state and local ordinances. If burned, stay out of smoke.

**NOTICE TO USER:**  
To the extent consistent with applicable law, seller makes no warranty, express or implied, of merchantability, fitness or otherwise concerning the use of this product other than as indicated on this label. To the extent consistent with applicable law, user assumes all risks of use, storage or handling not in strict accordance with label instructions.
