## MOSQUITO CONTROL TABLETS

EcoSMART Mosquito Control Tablets are a patented bi-layer tablet for use in mosquito breeding sites. The top layer quickly releases a dose of active ingredient that provides rapid control of existing mosquito larvae. The bottom layer provides an extended slow release of active ingredient that continually controls mosquito larvae in the water for up to 60 days. EcoSMART Mosquito Control Tablets' active ingredient, spinosad, is biologically derived from the fermentation of *Saccharopolyspora spinosa*, a naturally occurring soil organism.

### Precautionary Statements
