

# Brandt Antixx<sup>®</sup>

## Ant Killer

- Attracts and kills
- Ready-to-use pellet formulation
- 1 lb treats 2,000 ft<sup>2</sup>

### ACTIVE INGREDIENT:

Spinosad (a mixture of spinosyn A and spinosyn D) . . . . . 0.07%  
Other Ingredients: . . . . . 99.93%  
Total: . . . . . 100.00%

EPA Reg. No. 67702-25-48813

EPA Est. No. 48813-CA-1

## KEEP OUT OF REACH OF CHILDREN CAUTION

### FIRST AID

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information concerning this product, call the National Pesticide Information Center at 1-800-858-7378 seven days a week 6:30 am to 4:30 pm Pacific Time (NPIC Web site: [www.npic.orst.edu](http://www.npic.orst.edu)). During other times, call the poison control center 1-800-222-1222.

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

### PERSONAL PROTECTIVE EQUIPMENT (PPE) REQUIREMENTS

Applicators and other handlers must wear: long-sleeved shirts and long pants; and shoes plus socks. Follow manufacturer's instructions for maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

### USER SAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

### ENVIRONMENTAL HAZARDS

This product is toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a manner that will contact workers or other persons, either directly or through drift. Only protected workers may be in the area during application. For any requirements specific to your State or Tribe, consult the State or Tribal agency representative responsible for pesticide regulation.

### AGRICULTURAL USE REQUIREMENTS

Use this product in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about Personal Protective Equipment (PPE) and the restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard (WPS).

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 4 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water is:

- Coveralls
- Waterproof gloves
- Shoes plus socks

### APPLICATION DIRECTIONS

Spread the bait on the soil around or near the plants to be protected or as a perimeter treatment. The bait may also be applied to fallow fields, areas prior to planting, and areas prior to plant emergence. For broadcast application, use standard broadcast spreaders. For row application, use standard granular spreaders. Apply at the higher rate if the infestation is severe. Reapply after heavy rain or watering. Reapply as the product is consumed or at least every 2 to 4 weeks. Do not apply more than 3 times in any 30 day period.

Do not place in piles. If the ground is dry, wet it before applying bait. The product works best when soil is moist but with little or no standing water. See specific directions for different use sites.

BRANDT ANTIXX contains 0.0007 lbs of spinosad per lb. Use the following table to assist in calculating applied a.i. per acre.

### APPLICATION RATE REFERENCE TABLE

| Application Rate of BRANDT ANTIXX | Active Ingredient Equivalent (lb ai/acre) |
|-----------------------------------|-------------------------------------------|
| 20 lbs/acre                       | 0.014                                     |
| 25 lbs/acre                       | 0.0175                                    |
| 30 lbs/acre                       | 0.021                                     |
| 35 lbs/acre                       | 0.0245                                    |
| 40 lbs/acre                       | 0.028                                     |
| 44 lbs/acre                       | 0.0308                                    |

## TURF AND ORNAMENTALS

**PESTS CONTROLLED:** Ants: including foraging ants, sweet-feeding ants, pavement ants, moisture ants, little black ants, argentine ants, crazy ants, acrobat ants, bigheaded ants, cornfield ants, ghost ants, odorous house ants, thief ants, Texas leafcutting ants, and other common ants (excluding fire ants, harvester ants, Pharaoh's ants and carpenter ants), earwigs, cutworms.

When pests are detected, broadcast the bait by hand or with a granular spreader. Alternatively, in or around plant pots on greenhouse benches, or in or around container-grown plants apply at 0.15 oz., or 1 level teaspoon, per square yard, in a 6 inch circular band around the base of the plants to be protected.

Application Rate: 20-44 lbs/acre (0.5-1 lb/1000 sq ft). Use the higher rate for heavy infestations.

| <i>CROP</i>                                                                                                                                                                                | <i>Maximum number of applications</i>                   | <i>Application Interval</i>                      | <i>Additional Restrictions</i>                                                                   |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------|--------------------------------------------------|--------------------------------------------------------------------------------------------------|
| <b>Turf</b> (lawns, athletic field and recreational areas, commercial turf, sod, golf courses, and grass buffers around gardens, crop areas and ornamentals)                               |                                                         | Do not make applications less than 7 days apart. | Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per year. |
| <b>Outdoor Ornamentals</b> (herbaceous and woody plants)                                                                                                                                   |                                                         | Do not make applications less than 7 days apart. | Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per year. |
| <b>Greenhouse Ornamentals</b>                                                                                                                                                              | Do not make more than 10 applications per calendar year | Do not make applications less than 7 days apart. | Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per year. |
| <b>Outdoor container-grown nursery plants</b>                                                                                                                                              |                                                         | Do not make applications less than 7 days apart. | Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per year. |
| <b>Tree Farms and Plantations</b> (Conifers, including Christmas trees, and deciduous trees)                                                                                               | Do not make more than 6 applications per calendar year. | Do not make applications less than 7 days apart. | Do not apply more than a total of 0.45 lb ai spinosad (including foliar uses) per acre per year. |
| <b>Other agricultural areas</b> (fallow land, barrier strips and buffer zones, areas prior to planting, planted areas prior to crop emergence)                                             |                                                         |                                                  |                                                                                                  |
| <b>Non-crop areas</b> (pastures, rangeland, forests, parks, playgrounds, cemeteries, picnic areas, roadsides, campgrounds, industrial sites, fallow land, barrier strips and buffer zones) |                                                         |                                                  |                                                                                                  |

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment by shaking and tapping sides and bottom to loosen clinging particles. Then offer for recycling, if available, or dispose of empty bag in a sanitary landfill, or by incineration, or by other procedures allowed by State and local authorities.

## CONDITIONS OF SALE AND WARRANTY

To the extent consistent with applicable law, seller warrants that this product conforms to the chemical description on this label and is reasonably fit for the purposes stated on this label only when used in accordance with directions under normal use conditions. To the extent consistent with applicable law, this warranty does not extend to use of this product contrary to label directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to seller. To the extent consistent with applicable law, seller makes no other warranties, either expressed or implied. [N20140203]
