22175SUN  
H22175SUNLBLF

**FOR SWIMMING POOL SHOCK TREATMENT:** Don't let dull, cloudy water, strong odors and eye irritation affect your swimming experience! Use Sun® Sun-Burn™ Extra to keep your water brilliantly clear. As part of a pool care program, this product destroys and removes contaminants—such as perspiration and suntan oils—that can affect swimmer comfort. There's no need to pre-dissolve\* this product, and it can be safely used in pools sanitized with either chlorine or bromine.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

1. Check all pool equipment and be sure it is working properly.
2. Backwash or clean filter following manufacturer's directions.
3. Test pH and adjust to between 7.2-7.6.
4. In chlorinated pools, add a minimum 30 ppm stabilizer level to reduce the effects of sunlight upon the chlorine residual. NOTE: Do not add stabilizer to brominated pools.
5. Prior to use of this product, test pool water for the presence of metals. If any metals are present, add a stain inhibiting product to prevent the deposition of metal stains on pool surfaces.
6. When using other products as outlined in the directions for this product, always follow label directions of those products.

**Dosage Directions**

**SHOCK:** Using Applications Methods, apply 1 pound per 20,000 gallons of water every week or 1 pound per 10,000 gallons every 2 weeks when the pool is not in use (preferably at night). Reapply after heavy rain or heavy bather loads.

**\*Application Methods:** When the maximum depth of the pool is less than 4 feet deep or when water is less than 65°F, pre-dissolve using Application Method B. For all other applications, use Application Method A.

**Application Method A**

1. Be sure pool circulation pump is on.
2. Holding container close to pool surface, broadcast the appropriate dosage of this product across the surface of the pool in the deep end of the pool.

**NOTE:** In pools with potentially bleachable surfaces, such as vinyl, paint, fiberglass or colored plaster, use a pool brush following application. Brush the surfaces to ensure dissolving of the product. Never allow undissolved product to rest in contact with bleachable pool surfaces.

MANUFACTURED FOR: ASEPSIS  
SUN POOL PRODUCTS  
P.O. BOX 1788, SUWANEE, GA. 30024-0973

**Application Method B**

1. Be sure pool circulation pump is on.
2. Dissolve this product outdoors. Use a clean plastic bucket and place water into the bucket. Then add product to water in bucket. Use a clean plastic or wooden spoon to stir. Never add more than 1 pound of this product to less than 3 gallons of cool water.
3. After dissolving this product, pour the solution around the edge of the pool with circulation pump on.

**NOTE: NEVER MIX THIS PRODUCT WITH ANY OTHER PRODUCT.**

**Re-entry into treated swimming pool is prohibited above levels of 4 ppm chlorine due to risk of bodily injury.**

**STORAGE AND DISPOSAL:** Keep this product dry in its original unopened bag until use. For partially used bags, fold over top of bag and secure with adhesive tape. Store unopened and partially used bags in a secure location away from children. Store in a cool, dry, well-ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate bag if possible and flood area with large amounts of water to dissolve all material before discarding this bag. Do not contaminate food or feed by storage or disposal. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.

**PRECAUTIONARY STATEMENTS:**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER:** Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed. Harmful if absorbed through skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Avoid contact with skin, eyes or clothing. Wear protective eyewear (goggles or safety glasses). Wear protective clothing and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust and fumes. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove contaminated clothing and wash clothing before reuse.

**FIRST AID: IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control cen-

ter or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. **Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IN CASE OF MEDICAL EMERGENCY CALL: 1-877-800-5553.**

**Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage.

**PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT:** Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

**NOTE:** Buyer assumes all responsibility for safety and use not in accordance with directions.
