APPLIED BIOCHEMISTS®

GRANULAR

STABILIZED CHLORINATING CONCENTRATE GRANULAR

ACTIVE INGREDIENT:

Sodium Dichloroisocyanurate dihydrate.....	99%
OTHER INGREDIENTS:.....	1%
TOTAL INGREDIENTS:.....	100%
(Available Chlorine.....)	56%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

Contamination or improper use may cause fire or explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not mix this product with a small amount of water. Only add directly to your pool or spa. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed.

See side panel for first aid and precautionary statements.

NET WEIGHT 50 LBS.

**WARNING
AVISO**

Children can fall into bucket and drown.
Keep children away from bucket with even a small amount of liquid.

Los Niños pueden caerse a este cubo y ahogarse.
No deje que los niños se acerquen a este cubo aunque solo contenga una pequeña cantidad de liquido.

FIRST AID

IF IN EYES: Hold eyelids open and rinse slowly with water for 15 to 20 minutes. Remove contact lenses, if present, after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Get medical attention.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Reentry into treated swimming pool is prohibited above levels of 4 parts per million (ppm) available chlorine.

This product is a stabilized concentrated chlorine that will provide effective control of bacteria and algae when used as directed.

1. Adjust the pool water's pH value to between 7.2 and 7.8 and the total alkalinity to between 80 and 150 ppm as determined by a suitable test kit.
2. Stabilize the pool water with 30 ppm of stabilizer as directed on the container label. Regular use of this product will provide any needed makeup conditioner.
3. Shock treat the pool water by using 9 ounces of this product for each 10,000 gallons of pool water. Before using the pool, be certain the chlorine level returns to 1.0 to 1.5 ppm.
4. Maintain a free available chlorine level of 1.0 to 1.5 ppm (as determined daily by a suitable test kit) at all times. For each 10,000 gallons of pool water, add 2 and a half (2 ½) ounces of this product every other day (or 1 and a quarter (1 ¼) ounces daily) or more as needed to maintain the proper chlorine level.
5. Shock treat your pool at least twice monthly (more often in warmer climates) according to Step 3 above. During hot weather and peak bather loads, shock treat your pool weekly to prevent water cloudiness and algae growth.

PRECAUTIONARY STATEMENTS**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER. Corrosive. Causes irreversible eye damage or skin burns. Harmful if inhaled, swallowed, or absorbed through skin.

- Open in a well-ventilated area. Avoid breathing dust and fumes.
- Do not get in eyes, on skin or on clothing. Wear goggles and chemical resistant gloves. For additional protection of skin, wear long sleeves and long pants, and shoes with socks.
- Wash hands after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove contaminated clothing and wash clothing before reuse.

PHYSICAL or CHEMICAL HAZARDS:

DANGER. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gas and spatter. Do not add water to this product. Add only into water.

- Do not mix this product with a small amount of water. Only add this product directly to your pool.
- Do not allow to become wet or damp before use.

Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

- Keep all foreign matter, including other water treatment products, away from this product.
- Use only clean dry utensils to dispense this product.
- Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in a skimmer.
- Avoid spilling this product.

Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.

- Store in a cool, dry, well-ventilated area away from heat or open flame.

Strong oxidizing agent. This product can increase fire intensity.

- Keep away from heat and from flame and burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE & DISPOSAL: Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage:

Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

Pesticide Disposal and Container Handling:

Nonrefillable container. Do not reuse or refill this container.

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions.

Never place unused product down any indoor or outdoor drain.

Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.
