APPLIED BIOCHEMISTS® 3" TABLETS

STABILIZED CHLORINATING CONCENTRATE IN LARGE 3" TABLETS

ACTIVE INGREDIENT:

Trichloro-s-Triazinetrione.....	99%
OTHER INGREDIENTS:.....	1%
TOTAL INGREDIENTS:.....	100%
(Available Chlorine.....)	90%

KEEP OUT OF REACH OF CHILDREN DANGER

Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water. Do not remove floater or other dispensing device from water for an extended period of time if it contains tablet or tablet residue. Do not mix this product with a small amount of water. Only add directly to your pool. Corrosive. May be fatal if inhaled or absorbed through skin. Harmful if swallowed. Read all precautionary statements on back label and first aid statements before use.

See back panel for first aid and precautionary statements.

NET WEIGHT 50 LBS.

**WARNING
AVISO**

**Children can fall into
bucket and drown.
Keep children away from bucket
with even a small amount of liquid.**

**Los Niños pueden caerse
a este cubo y ahogarse.
No deje que los niños se acerquen
a este cubo aunque solo contenga
una pequeña cantidad de líquido.**

EAR

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
IN CASE OF EMERGENCY CALL: 1-800-654-6911

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is an extremely concentrated form of a swimming pool sanitizing agent. This product is designed to dissolve slowly and at a uniform rate to eliminate the need of frequent hand-feeding of granular or liquid chlorination.

Reentry into treated swimming pools is prohibited above levels of 4 ppm chlorine.

FOR CONTINUOUS DAILY CHLORINATION:
Before the first use of this product, be sure to take the following steps:

- Adjust the pool water pH value to between 7.2 and 7.8 as determined by a suitable test kit and adjust the total alkalinity to 80 to 150 ppm (parts per million).
- Stabilize pool water to at least 30 ppm with a pool stabilizer as directed on the container label. Regular use of this product for daily chlorination will provide any needed makeup stabilizer.
- Superchlorinate (shock treat) your pool water to reach a 4 ppm residual chlorine reading.
- Once you complete 1, 2 and 3 above, use this product to maintain the free residual chlorine at a safe and efficient 1.0-1.5 ppm at all times as determined by the daily or more frequent use of a suitable test kit.
- Using a feeder, floater or skimmer dispenser, immerse one tablet (or as many as required to continuously maintain the safe free available chlorine level) for each 5,000 to 10,000 gallons of pool water.

NEVER ADD THESE TABLETS DIRECTLY INTO THE SWIMMING POOL AS DISCOLORATION OF THE POOL LINER OR FINISH MAY OCCUR.

- Superchlorinate or shock treat your pool water at least twice monthly (more often in warmer climates) during hot weather and peak bather loads using **Applied Biochemists Shocktrine®** shock oxidizer. Failure to shock treat regularly can result in the growth of algae in your pool.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage. Causes eye and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed. Causes burns to digestive tract. Irritating to nose and throat.

- Open in a well-ventilated area. Avoid breathing dust and fumes.
- Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves.
- For additional protection of skin, wear long sleeves and long pants.
- Wash hands after handling and before eating, drinking, chewing gum, using tobacco.
- Remove contaminated clothing and wash clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS:
DANGER. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gas and spatter. Do not add water to this product. Add only into water.

CENTER BACK

- Do not mix this product with a small amount of water. Only add this product directly to your pool.
- Do not allow to become wet or damp before use.
- Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.**
- Keep all foreign matter, including other water treatment products, away from this product.
- Use only clean dry utensils to dispense this product.
- Do not allow this product to contact other water treatment products. If used in a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in a skimmer.
- Avoid spilling this product.
- Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.**
- Store in a cool, dry, well-ventilated area away from heat or open flame.
- Strong oxidizing agent. This product can increase fire intensity.**
- Keep away from heat and from flame and burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE & DISPOSAL: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment.
