Ecto-Soothe® 3X, using Spherulites®, represents a breakthrough in skin care technology. SPHERULITES® An exclusive and patented encapsulation system was developed by Virbac to provide slow release of contents long after the shampoo is rinsed off. Oatmeal and glycerin are present in encapsulated (Spherulites) and free forms. The patented encapsulation system does not include any pesticide ingredients, nor will it provide any increased pesticide effectiveness. The encapsulation system contents are only present for the purpose of soothing and moisturizing the animal's skin after use.

*Spherulites only provide moisturizing for the animal's skin after use, and do not increase the effectiveness of the active pesticide ingredients.
