

**PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER: CORROSIVE:** Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

**STORAGE AND DISPOSAL: STORAGE:** Keep product in tightly closed container when not in use. Store in cool, dry well-ventilated area away from heat or open flame.

**DISPOSAL: IF EMPTY:** Nonrefillable container. Do not reuse or refill this container. Place in trash collection or offer

for recycling if available. **IF PARTLY FILLED:** Call your solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**PHYSICAL OR CHEMICAL HAZARD: STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE AND EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRRITATING AND HAZARDOUS CHLORINE CONTAINING GASES. DECOMPOSES AT 460° F TO 480° F WITH LIBERATION OF HARMFUL GASES.**

Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to a fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion.

**IN CASE OF FIRE,** if possible, isolate container in open air or well ventilated area. Flood with large volume of water. **IN CASE OF CONTAMINATION OR DECOMPOSITION,** do not reseal container.

Item #020

Manufactured By  
**CHEM LAB PRODUCTS, INC.**

**DIRECTIONS FOR USE:** It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**DANGER:** never mix this concentrated chemical with any other substance except generous amounts of water. See CHEMICAL HAZARDS on this label.

**VINYL-LINED POOL CARE:** Vinyl-lined pools are easily damaged by chemicals used to treat and maintain pools. Kem-Tek Vinyl Pool Shock is well suited for use in these pools, especially the above-ground pools which have 3-4 foot depths and are not equipped with a bottom drain. Kem-Tek Vinyl Pool Shock dissolves fast and completely (is easily pre-dissolved in a bucket of water to help avoid potential problems), so direct contact with the pool liner is reduced and there are no residues to be swept or vacuumed from the pool bottom. Kem-Tek Vinyl Pool Shock also simplifies pH control because it's pH neutral, compared to other forms of chlorinating products which contain calcium hypochlorite and sodium hypochlorite, (NOTE: insoluble crystal-forming reaction will result when using sodium bisulfate (dry pool acid) to adjust pH when used in conjunction with calcium hypochlorite). Kem-Tek Vinyl Pool Shock will not cloud water even when superchlorinating which often occurs with calcium hypochlorite products.

**SUPERCHLORINATION:** Whenever the pool water loses its sparkle or turns green or the chlorine residual falls rapidly after regular chlorination, superchlorination is recommended.

Experience shows that during summer months, water should be superchlorinated with 6 oz. of VINYL POOL SHOCK per 5,000 gallons of pool water every 10 to 14 days. Do not use the pool until the chlorine residual has dropped to 3 ppm.

FIRST AID	
If In Eyes	Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.
If Inhaled	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth if possible. Call a poison control center or doctor immediately for treatment advice.
If Swallowed	Call a poison control center or doctor immediately for treatment advice. Promptly drink large quantity of water if able to swallow. DO NOT induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person.
If on Skin or Clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.
Have the product container or label with you when calling poison control center or doctor, or going for treatment. For assistance call 1-800-767-7665	
Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage
