TOTAL.....100.0%

(50.3% Available Chlorine)

NET WT 0.875 LB (14 OZS)

FIRST AID: IF IN EYES: Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Promptly drink large quantity of water if able to swallow. **DO NOT** induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For assistance call 1-800-767-7665. **NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

MAINTAINING YOUR POOL IS AS EASY AS

The KEM-TEK POOL & SPA CARE SHOCK QUICK 15 Advantages: This special blend of patented ingredients works fast allowing swimmers back into the pool in just 15 minutes†. This is a premium grade shock product, so it takes only 14 oz of KEM-TEK POOL & SPA CARE SHOCK QUICK 15 to treat 15,000 gallons of pool water. KEM-TEK POOL & SPA CARE SHOCK QUICK 15 can be added directly into the water without pre-dissolving and it is ideal for all types of swimming pools. It destroys swimmer wastes and other impurities that cause cloudy water. KEM-TEK POOL & SPA CARE SHOCK QUICK 15 dissolves faster than ordinary shock products without leaving residue. It does not increase the pH of the pool water or contain calcium that causes scale build-up.

DO NOT PRE-DISSOLVE IN CONTAINER (ie. bucket) BEFORE APPLYING.

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

START UP: Step 1. Condition pool water with cyanuric acid (KEM-TEK POOL & SPA CARE STABILIZER CONDITIONER) as per directions on the label. Thereafter, regular use of KEM-TEK POOL & SPA CARE SHOCK QUICK 15 alone will maintain proper stabilization. **NOTE:** Omit Step 1 if pool is already conditioned with similar stabilizer. **Step 2.** Concurrently with Step 1, initially treat water by adding 14 oz of KEM-TEK POOL & SPA CARE SHOCK QUICK 15 per 7,000 gallons of pool water.

DAILY USE: After steps 1 and 2, regularly check chlorine residual with a test kit and chlorinate daily or as needed to maintain 1.0 to 1.5 ppm residual chlorine.

NOTE: 3 ounces of this compound per 10,000 gallons of pool water will increase an existing chlorine level by 1.0 ppm (1/8 rounded measuring cup = 1 oz.).

****WEEKLY USE:**

1. Check the pH of the pool water daily, adding sodium bisulfate (KEM-TEK POOL & SPA CARE pH MINUS) or soda ash (KEM-TEK POOL & SPA CARE pH PLUS) or equivalent products as necessary to maintain pH in the 7.2–7.6 range.
2. KEM-TEK POOL & SPA CARE SHOCK QUICK 15 is made up of fine particles that dissolve almost instantly when applied to water. Use the entire bag for each application (if applicable). For best results, pour a steady stream of KEM-TEK POOL & SPA CARE SHOCK QUICK 15 into the deep end of the pool. Pour near the water surface (particularly if the wind is present while applying) to ensure the entire dose enters the water.
3. Operate the pump system 4–8 hours (minimum) after applying KEM-TEK POOL & SPA CARE SHOCK QUICK 15.
4. Use 14 oz. of KEM-TEK POOL & SPA CARE SHOCK QUICK 15 to treat 15,000 gallons of pool water every week for best results.

SUPER CHLORINATION: When the pool water loses its sparkle, turns green, or chlorine residual rapidly falls after regular chlorination, Super Chlorinate. During the summer months, water must be super chlorinated with 14 oz per 7,000 gallons of pool water every 10 to 14 days. Do not use the pool until the chlorine residual has dropped to 3 ppm.

*** During Super-Chlorination**

† Pool may be used in 15 minutes after adding this product only when chlorine level is at or below 3 ppm

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

DANGER: Causes irreversible eye damage. May be fatal if inhaled. Causes skin irritation. Harmful if swallowed or absorbed through skin or clothing. Do not get in eyes, on skin or on clothing. Do not breathe dust. Wear goggles or face shield, and mask or pesticide respirator approved by the National Institute for Occupational Safety and Health. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

Environmental Hazards: This product is toxic to fish and aquatic organisms.

Physical or Chemical Hazard:

STRONG OXIDIZING AGENT. WILL BURN WITH THE EVOLUTION OF CHLORINE OR EQUALLY TOXIC GASES. CONTACT WITH WATER SLOWLY LIBERATES IRRITATING AND HAZARDOUS CHLORINE CONTAINING GASES. DECOMPOSES AT 460° F TO 480° F WITH THE LIBERATION OF HARMFUL GASES. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with the generation of heat, liberation of hazardous gases and possible generation of fire or explosion. IN CASE OF FIRE, if possible, isolate container in open air or well-ventilated area. Flood with a large volume of water. IN CASE OF CONTAMINATION OR DECOMPOSITION: do not reseal container.

STORAGE AND DISPOSAL:

STORAGE: Keep product in tightly closed container when not in use. Store in a cool, dry well-ventilated area away from heat or open flame. **DISPOSAL:** Nonrefillable Container. Do Not reuse or refill this container. Place in trash or offer for recycling if available. Call your local solid waste agency for disposal instructions. Never place unused product in any indoor or outdoor drains.
