DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

BLACK ALGAE TREATMENT: This product is a potent algaecide, which is effective against all algae when used as directed. It is especially effective against so-called "black" algae which appears as spots on the walls and bottom of pools.

1. Check pH of water. Adjust pH (if necessary) to a residual of 7.2 – 7.6 using a reliable test kit and soda ash or dry pool acid.

2. Similarly, check available chlorine and adjust (if necessary) to a residual of 1.0 – 1.5 ppm using a dry or liquid chlorinating product.

3. Place one tablespoon of KEM-TEK POOL & SPA CARE BLACK ALGAE TREATMENT directly on the black spots (if on the pool bottom). If spots are on the pool walls, place a tablespoon of KEM-TEK POOL & SPA CARE BLACK ALGAE TREATMENT on a 6" square cloth, tie and hang from the edge of the pool by the spot.

4. Wait 24 to 36 hours. Brush spots off with a wire algae brush and repeat steps 1 through 3 until algae free.

NOTE: Do not allow direct contact of this product on the following pool surfaces: vinyl, metallic, fiberglass, painted or colored plaster. Product will bleach color out.

Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with the generation of heat, liberation of hazardous gases and possible generation of fire or explosion.
