Algaecide 60% Concentrate

- Treats algae and prevents regrowth
- Concentrated algaecide
- Advanced formula
- Salt system compatible

Algaecide

**KEEP OUT OF REACH
OF CHILDREN
CAUTION**

See back panel for other
precautions

ACTIVE INGREDIENT:

Poly (oxyethylene
(dimeyethyliminio)
ethylene (dimethyliminio)
ethylene dichloride)..... 60.0%
OTHER INGREDIENTS..... 40.0%
TOTAL..... 100.0%

FIRST AID: Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment. **IF IN EYES:** Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **IF SWALLOWED:** Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth-to-mouth, if possible. Have the product container or label with you when calling poison control center or doctor, or going for treatment. **NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

NET 1 QT (32 FL OZ)

The presence of algae in swimming pools is objectionable and can be difficult to remove. HDX ALGAECIDE 60% CONCENTRATE helps prevent the growth of chlorine-resistant algae, (such as mustard and black algae). It also acts as an added defense against algae due to low chlorination periods. Once started, algae greatly increases chlorine demand and the associated increased cost.

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Freshly-Filled and/or Algae-Free Swimming Pools: Add 8 ounces of HDX ALGAECIDE 60% CONCENTRATE per 10,000 gallons pool water. Add 2 to 4 ounces (per 10,000 gallons) weekly as a maintenance dose to prevent algae growth through the swimming season.

Visible Algae Growth: Super-chlorinate with a fast-acting, chlorinating product (such as HDX SHOCK 10,000 GALLONS) to a chlorine reading of 5 ppm. Do not use the pool until the chlorine residual has dropped to 3 ppm. Remove all debris by vacuuming or sweeping and filtering. In order to aid in the removal of the fine particles resulting from the affected algae, use HDX ULTRA CLARIFIER. Add an initial dose of 16 ounces of HDX ALGAECIDE 60% CONCENTRATE per 10,000 gallons of water to rid the water of the remaining chlorine-resistant algae. Thereafter, add 2 to 4 ounces (per 10,000 gallons) weekly during swimming season to prevent regrowth of algae.

NOTE: In order to ensure maximum effectiveness of HDX ALGAECIDE 60% CONCENTRATE (and all other swimming pool chemicals), always maintain pH at 7.2 to 7.6 and a free-chlorine residual of 1 to 2 ppm. Measure by using a reliable test kit.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Harmful if swallowed or absorbed through the skin. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, aquatic organisms, and clams.

STORAGE AND DISPOSAL:

STORAGE: Keep container closed when not in use. Store in cool, dry, well ventilated area away from heat or open flame.

CONTAINER DISPOSAL:

IF EMPTY: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

IF PARTLY FILLED: Call your local solid waste agency for disposal instruction. Never place unused product down any indoor or outdoor drain.
