#### ORTHO® WEED B GON® CONCENTRATE

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Application Restrictions:** Do not apply this product in a way that will contact any person or pet, either directly or through drift.

Keep people and pets out of the area during application. Do not allow people or pets to enter the treated area until sprays have dried. Do not apply as a fine mist because of potential injury to desirable plants. Do not apply directly to or near water, storm drains, gutter, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays and oceans. Do not apply when windy. To prevent product run-off, do not over water the treated areas to the point of runoff or apply when raining or when rain is expected that day. Rinse applicator over lawn or garden area only.

The maximum application rate is 5 fl oz of product per 1,000 sq ft per application (0.37 lb 2,4-D acid equivalent per acre per application). The maximum number of broadcast applications is limited to 2 per year. The maximum season rate is 10 fl oz of product per 1,000 sq ft per application (0.74 lb 2,4-D acid equivalent per acre per application).

**Personal Hygiene Statements:** After using this product, rinse gloves before removing, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water. Remove saturated clothing as soon as possible and shower.

**Amount to Use:** Add entire contents (5 oz.) to an empty tank sprayer, or 1.0 or 1.33 gallon Ortho Weed-B-Gon Max Ready to Use container only. Slowly fill with 123 oz. of tap water.

Specially formulated for residential use.

#### MIXING INSTRUCTIONS

**FOR SENSITIVE LAWNS:** Bentgrass, Buffalograss, Centipedegrass & St. Augustinegrass (DO NOT USE ON Floratam®)

**Amount to Use:** 1 fl oz (2 Tbs) per gallon of water for each 400 sq ft

**When using Ortho® Dial 'N Spray® applicator:**

- Set dial to 1 oz.
- Add 2 1/2 fl oz (5 Tbs) to sprayer jar. **DO NOT ADD WATER.**
- Spray evenly over 1,000 sq ft until jar is empty.

\*Floratam is a variety of St. Augustine-grass widely grown in Florida.

**FOR HARDY LAWNS:** Bahiagrass, Bermudagrass, fescues, Kentucky bluegrass, perennial ryegrass & zoysiagrass

**Amount to Use:** 2 fl oz (4 Tbs) per gallon of water for each 400 sq ft

**When using Ortho® Dial 'N Spray® applicator:**

- Set dial to 2 oz.
- Add 5 fl oz (10 Tbs) to sprayer jar. **DO NOT ADD WATER.**
- Spray evenly over 1,000 sq ft until jar is empty.

#### FOR BEST RESULTS

**MOW AND WATER:** Do not mow for 1 to 2 days before or after application. If soil is dry, water 1 to 2 days before application. Rain or watering 2 hours after application will not wash away effectiveness.

**WHEN TO APPLY:** Spray when: weeds are small and actively growing, temperature is below 90°F, air is calm to avoid spray drift onto landscape plants as contact with foliage may injure flowers, shrubs, trees and other desirable plants. Reapplication can be made in 2 to 3 weeks if necessary. Newly-seeded lawn can be sprayed after first mowing. Bare spots can be planted with grass seed 1 week after application.

**IMPORTANT:** If an ornamental shrub or tree is in the lawn, keep spray off foliage and exposed roots. St. Augustinegrass, centipedegrass or Bermudagrass lawns may have delayed green-up if this product is used when lawns are emerging from dormancy or when temperature drops below 45°F within 72 hours of application. Do not spray carpetgrass, dichondra or desirable dovers. Do not use on or around fruits, vegetables or flowers. **DO NOT USE ON Floratam, a variety of St. Augustinegrass.** The maximum number of broadcast applications per treatment site is 2 per year. Do not exceed specified dosages for any area.

#### PRECAUTIONARY STATEMENTS

##### HAZARDS TO HUMANS & DOMESTIC ANIMALS

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Harmful if swallowed. Wear long sleeved shirt, long pants, socks, and shoes. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

#### STORAGE AND DISPOSAL

**STORAGE:** Store in original container in a locked storage area inaccessible to children or pets. Keep from freezing.

##### DISPOSAL:

**If empty:** Non-refillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

**If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

#### FIRST AID

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**NOTE TO PHYSICIAN:** Emergency information call 1-800-225-2883.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

This chemical has properties and characteristics associated with chemicals detected in the groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

**NOTICE:** Buyer assumes all risks of use, storage or handling of this product not in accordance with directions.

Specially formulated for residential use.

1 Tablespoon (Tbs) = 3 teaspoons (tsp)  
1 fl oz = 2 Tbs

**MIXING INSTRUCTIONS**

**FOR SENSITIVE LAWNS:** Bentgrass, Buffalograss, Centipedegrass & St. Augustinegrass (DO NOT USE ON Floratam\*)

**Amount to Use:** 1 fl oz (2 Tbs) per gallon of water for each 400 sq ft

**When using Ortho® Dial 'N Spray® applicator:**

- Set dial to 1 oz.
- Add 2½ fl oz (5 Tbs) to sprayer jar.
- **DO NOT ADD WATER.**
- Spray evenly over 1,000 sq ft until jar is empty.

\* Floratam is a variety of St. Augustinegrass widely grown in Florida.

**FOR HARDY LAWNS:** Bahiagrass, Bermudagrass, fescues, Kentucky bluegrass, perennial ryegrass & zoysiagrass

**Amount to Use:** 2 fl oz (4 Tbs) per gallon of water for each 400 sq ft

**When using Ortho® Dial 'N Spray® applicator:**

- Set dial to 2 oz.
- Add 5 fl oz (10 Tbs) to sprayer jar.
- **DO NOT ADD WATER.**
- Spray evenly over 1,000 sq ft until jar is empty.

**FOR BEST RESULTS**

**MOW AND WATER:** Do not mow for 1 to 2 days before or after application.

If soil is dry, water 1 to 2 days before application. Rain or watering 2 hours

after application will not wash away effectiveness.

**WHEN TO APPLY: Spray when:** weeds are small and actively growing, temperature is below 90°F, air is calm to avoid spray drift onto landscape plants as contact with foliage may injure flowers, shrubs, trees and other desirable plants. Reapplication can be made in 2 to 3 weeks if necessary.

Newly-seeded lawn can be sprayed after first mowing. Bare spots can be planted with grass seed 1 week after application.

**IMPORTANT:** If an ornamental shrub or tree is in the lawn, keep spray off foliage and exposed roots.

St. Augustinegrass, centipedegrass or Bermudagrass lawns may have delayed green-up if this product is used when lawns are emerging from dormancy or when temperature drops below 45°F within 72 hours of application. Do not spray carpetgrass, dichondra or desirable clovers. Do not use on or around fruits, vegetables or flowers. **DO NOT USE ON Floratam, a variety of St. Augustinegrass.** The maximum number of broadcast applications per treatment site is 2 per year. Do not exceed specified dosages for any area.

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS & DOMESTIC ANIMALS

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Harmful if swallowed. Wear long-sleeved shirt, long pants, socks, and shoes. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

### STORAGE AND DISPOSAL

**STORAGE:** Store in original container in a locked storage area inaccessible to children or pets. Keep from freezing.

**DISPOSAL: If empty:** Non-refillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

**If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**FIRST AID**

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do

so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**NOTE TO PHYSICIAN:** Emergency information call 1-800-225-2883.

**NOTICE:** Buyer assumes all risks of use, storage or handling of this product not in accordance with directions.

**The ORTHO Guarantee:** If for any reason you are not satisfied with this product, mail us proof of purchase to obtain a full refund of your purchase price.

# BASE LABEL

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid runoff to water bodies or drainage systems.

This chemical has properties and characteristics associated with chemicals detected in the groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.
