1 bait station containing 1.4 oz. (40 g) bait and 8 - 0.7 oz. (20 g) bait block refills

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Harmful if swallowed, absorbed through the skin or inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Avoid breathing dust. Keep away from children, domestic animals and pets. Any person who reloads bait into the station, retrieves carcasses or unused bait following application of this product must wear waterproof gloves. Wash hands thoroughly immediately after such activities.

FIRST AID

Have this label with you when obtaining treatment advice.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.

If Inhaled: Move person to fresh air. If person is not breathing, call an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor immediately for treatment advice.

Treatment for Pet Poisoning: If animal eats bait, call veterinarian at once.

Note to Physician or Veterinarian: Contains the anticoagulant chlorophacinone. If swallowed, this material may reduce the clotting ability of blood and cause bleeding. For humans or dogs that have ingested this product, or have obvious poisoning symptoms (bleeding) or prolonged prothrombin times, give Vitamin K1 by intramuscular or oral administration.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to mammals and birds. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten the bait.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL and follow all use directions and use precautions. Use only for the sites, pests and application methods described on this label.

USE RESTRICTIONS: This bait station may be used in indoor areas accessible to children, consistent with all use restrictions and other requirements indicated on this label. **DO NOT USE THIS PRODUCT OUTDOORS OR IN AREAS ACCESSIBLE TO PETS.** This product may only be used to control house mice inside homes. For use in non-food/non-feed areas. Do not contaminate human or pet food preparation items or areas. Do not place near or inside ventilation duct openings.

Selection of Treatment Areas: Determine areas where mice will most likely find and consume bait. Generally, these are along walls, by gnawed openings, in corners and concealed places, between floors or walls, or in locations where house mice or their signs have been seen. Remove as much alternative food as possible.

APPLICATION DIRECTIONS:

1. **Clean Up:** Eliminate possible rodent food sources. Store food in sealed containers and sweep up food spills.
2. **Select Areas for Placement:** Focus on areas where rodents have been active – generally along walls, between floors or wall, inside cabinets, under appliances, in basements, attics or garages. Be sure to place out of reach of pets.
3. **Bait Station:** Remove bait station from package and place station in horizontal or vertical position against wall with both entrances exposed. When using multiple bait stations, space them 8 to 12 feet apart.
4. **Dispose:** Maintain a constant supply of fresh bait for 15 days or until signs of mouse activity cease. See refill instructions on how to refill bait station. When rodents are eliminated, wear waterproof gloves to collect and dispose of all visible dead animals and remaining bait.
5. **Prevent:** To prevent another infestation, limit sources of rodent food and water as much as possible.

Refill Instructions:

1. Insert key in hole on top of the bait station and turn the key 90°.
2. Lift lid and remove the key.

3. Place a fresh bait block onto each of the two pegs in the square bait compartments.

4. Close the lid until it snaps, making certain that station is locked.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store only in original container, in a dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill this container, except as described in the directions for use.

If Empty: Place in trash or offer for recycling, if available.

If Partly Filled: Call your local solid waste agency for disposal instructions. Never placed unused product down any indoor or outdoor drain.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
