SANI-GLIDE®

Non-Food Contact Surface Sanitizer and Conveyor Lubricant/Detergent
For the Dairy, Beverage and Food Processing Industries

ACTIVE INGREDIENTS:
- o-Phenylenediamine ................................................................. 1.5%
- o-Benzyl-p-chlorophenol ........................................................... 1.4%
OTHER INGREDIENTS*: ........................................................... 97.1%
TOTAL: ............................................................................. 100.0%

*Contains lubricity and cleaning agents.

KEEP OUT OF REACH OF CHILDREN
DANGER

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: CORROSIVE: Causes irreversible eye damage or skin burns. Harmful if swallowed or absorbed through skin or inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist. Wear goggles or face shield (safety glasses), protective gloves, protective clothing/long-sleeve shirt and long pants, socks, plus shoes and chemical resistant gloves, such as barrier laminated or butyl rubber, nitrile rubber, neoprene rubber, polyvinyl chloride, or vinyl. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Do not dress or undress skin contact may cause an allergic reaction in some individuals. Remove contaminated clothing and wash before reuse.

Follow manufacturer’s instructions for cleaning/maintaining personal protective equipment. If no such instructions for washables, use detergent and hot water. Keep and wash personal protective equipment separately from other laundry.

Office of the EPA.

Do not mix with anything but water.

NOTE TO PHYSICIAN:
FOR EMERGENCY MEDICAL INFORMATION WORLDWIDE, CALL: 1-651-222-5352 (IN THE USA).
Have the product label with you when calling a poison control center or doctor, or going for treatment.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move the person to fresh air. If the person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

Have the product label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PHYSICAL AND CHEMICAL HAZARDS: This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.
Pesticide Storage: Do not store above 120 deg. F. Keep from freezing.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. To clean the container before final disposal, empty the remaining contents from this container into application equipment or a mix tank. Fill the container about 10 percent full with water. Aerate vigorously for 2 minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two or more times. Offer for recycling, if available, or puncture and dispose of in a sanitary landfill or by incineration.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Sani-Glide is specially formulated for sanitation of conveyors in the dairy, beverage and food processing industries.

Sani-Glide contains a multiple phenolic system active as a sanitizer against the pathogenic organisms Listeria monocytogenes and Salmonella typhimurium, on inanimate, non-food contact surfaces.

Sani-Glide keeps conveyors free of slime and soil buildups.

PRE-CLEAN: For best results, spray-clean conveyors with a suitable detergent to remove soil and slime buildup.

SANITIZE: Spray-apply a 1% by volume (1-1/4 ounces to 1 gallon of water) dilution of Sani-Glide in water through standard conveyor lubricant spray nozzles using a conveyor lubricant dispensing system such as the Klenzade Lubri-Klenz 260, Super Klenz-Ject or Mikro Master 300. Allow a minimum of 5 minutes contact time. No need to rinse with potable water or remove product as Sani-Glide can be continuously applied to conveyors to prevent slime and soil buildup.

Sani-Glide is effective in water up to 150 ppm hardness as calcium carbonate (9 grains per gallon) at 1% by volume.

Not to be used on food contact surfaces.
