U.S.A.**

FOR EXTERIOR USE: To discourage starlings from roosting or perching on branches of trees, bushes and vines adjacent to buildings and structures.

NOTE: (Do not apply to the exterior of buildings or structures).

Treatments: To treat branches of trees, bushes, and vines adjacent to buildings and structures.

1. Prior to application, cover walkways and other surfaces that should be kept clean of repellent which might fall on them.
2. Apply 4 the Birds® Transparent Bird Repellent Liquid to the point of runoff to the top sides of all branches in the plants to be treated that are large enough to support a bird.
3. Do not dilute 4 the Birds® Transparent Bird Repellent Liquid with water or other solvents. Use as is.
4. Applications can only be made with hand or pressure spray guns which can generate sufficient pressure, up to 150 p.s.i., to move the material onto the desired treatment site. Keep material agitated. Do not apply this product from aircraft.
5. It is recommended that treatment to trees, bushes, and shrubs be made in the fall or early spring when limbs are bare and easily accessible.
6. Spraying should be done when temperatures are 40° F or above. Apply only during calm conditions to minimize drift.
7. The amount of coverage you can expect is dependent on type of tree, bush or shrub you are treating, spray equipment, and number of and size of branches treated. Generally, one gallon of 4 the Birds® Transparent Bird Repellent Liquid is sufficient to treat an average tree with a 5 in. diameter trunk, after foliage has fallen, or approximately six (6) three-foot high shrubs. These coverage approximations should be used only as a guideline.

Product Clean-up: 4 the Birds® Transparent Bird Repellent Liquid can be removed from interior surfaces, such as metal beams, wood, laminates and painted surfaces, with mineral spirits. It can be removed from sealed concrete, tile or stone surfaces by hosing with water if this is done within a very short time after the area was coated. Application equipment should be cleaned with mineral spirits after each use.

FIRST AID

HAVE THIS LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE

IF INHALED	<ul style="list-style-type: none">• Move person to fresh air.• If person is not breathing, call an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.• Call a Poison Control Center, doctor, or 1-800-664-9042 or 1-800-858-7378 immediately for treatment advice.
IF ON SKIN OR CLOTHING	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15 to 20 minutes.• Call a Poison Control Center or a doctor, or 1-800-664-9042 or 1-800-858-7378 immediately for treatment advice.
IF IN EYES	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.• Call a Poison Control Center, doctor, or 1-800-664-9042 or 1-800-858-7378 immediately for treatment advice.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if absorbed through the skin or inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin, clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

Small birds may become fatally entrapped by this tacky repellent. To reduce hazards to legally protected species, and to avoid noncompliance with the Federal Migratory Bird Treaty Act, follow all instructions in the Directions For Use.

PHYSICAL AND CHEMICAL HAZARDS

DO NOT APPLY TO ANY SURFACES WHERE WORKERS, OR OTHERS, MAY STEP ON THE MATERIAL, AS IT MAY BE SLIPPERY, ESPECIALLY IF WET.

IMPORTANT NOTICE. To the extent consistent with applicable law Seller makes no warranty, expressed or implied, concerning the use of this product other than as indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store only in original container, in a cool, dry place inaccessible to children or pets.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: If Empty: Nonrefillable container. Do not reuse or refill this container. Place in trash and offer for recycling if available.

If Partially Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its label.

USE RESTRICTIONS: This product discourages starlings from roosting or perching on the surfaces listed below FOR INTERIOR USE and FOR EXTERIOR USE. Use only for the sites, pests, and application methods specified on this label. 4 the Birds® Transparent Bird Repellent Liquid is a transparent, sticky product that remains tacky at 15° F and will not run at temperatures up to 200° F after initial application has set.

Do not use this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

NOTE: Do not apply this product directly to trees, bushes or vines that are in bloom or bearing fruit.

DO NOT APPLY AT LOCATIONS WHERE BIRDS PROTECTED BY THE FEDERAL MIGRATORY BIRD TREATY ACT MIGHT BECOME ENTANGLED IN THE REPELLENT. Do not contaminate food or livestock feed with this product.

APPLICATION DIRECTIONS:

FOR INTERIOR USE: To discourage starlings from roosting or perching on the inside supports of buildings and structures.

Surface Preparation: Clean surfaces to be treated to promote adhesion of repellent. Wipe or scrape all dust, dirt, droppings, and other loose debris from surfaces. Seal porous surfaces prior to treatment by brushing on one coat of shellac or a 50% solution of white glue and water, and allow to dry.

TREATMENTS: To treat beams, girders, struts, supports, and other places where birds can sit and roost.

1. Prior to application, cover machinery, floors, and other important items and surfaces to prevent 4 the Birds® Transparent Bird Repellent Liquid from falling on them.

2. Do not dilute 4 the Birds® Transparent Repellent Liquid with water or other solvents. Use as is.

3. Spray to the **point of runoff**. Spray in such a way that the top surfaces of beams, girders, etc. are coated. This would necessitate the operator to be level with or above the surfaces during application. Apply with any hand or pressure spray gun which has a discharge pressure of more than 40 and less than 150 p.s.i.

4. Apply product using a paint brush to surfaces that are difficult to cover by spraying.
