ADAMS[™] Flea & Tick Spot On[®] E³⁰ for Medium Dogs

IMPORTANT! Intended for Use on Dogs & Puppies 10 Weeks of Age or Older

READ ENTIRE LABEL BEFORE EACH USE. USE ONLY ON DOGS OR PUPPIES. DO NOT USE ON OTHER ANIMALS!

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product prevents flea eggs from developing into adult fleas for up to 2.5 months. This product also kills fleas and ticks for 3 weeks and kills and repels mosquitoes for 3 to 4 weeks.

This product works by application directly to the dog's/puppy's skin, not to the hair. When applying, manually push aside dog's/puppy's hair to allow direct application to the skin. Do not get this product in dog's eyes or mouth.

FOR MEDIUM DOGS AND PUPPIES

- 1 Bend at perforation and tear off first applicator.
- 2 Hold applicator and bend area of plastic at perforation, tear off and discard. Hold applicator upright and snap tip back, away from face and body.
- 3 The dog should be standing for easy application. This product should be applied evenly to three spots on the top of the back from the shoulder to the base of the tail. At each spot, part the hair until the skin is visible. Place the tip of the tube on the skin and gently squeeze to expel a portion of the solution on the skin. Do not apply an excessive amount of the solution at any one spot that could cause some of the solution to run off the side of the dog.
- 4 Do not spread this product by hand over the dog. Although the dog's skin and hair oils will naturally distribute the application over the entire dog, brushing the dog 12-24 hours after application will help to distribute the material over the skin.
- 5 Do not reapply product for 30 days unless re-treatment is required, but not sooner than 8 days after the initial treatment. Do not re-treat more than once per month.
- 6 Discard empty applicator as described in Storage and Disposal.

Adams[™] Flea & Tick Spot On[®] E³⁰ for Medium Dogs is most effective when used as part of a total flea and tick management program. Use other Adams[™] products registered for residential area control of these

pests in conjunction with this treatment. Monthly treatments are required for optimal control and prevention of fleas.

This product is water resistant and remains efficacious following exposure to rainfall or swimming.

STORAGE and DISPOSAL: **Pesticide Storage:** Store in a cool area away from children and animals. **Disposal:** If empty: Do not reuse applicator. Place in trash or offer for recycling if available. If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION
DO NOT USE ON PUPPIES LESS THAN 10 WEEKS OF AGE. For external use only. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Repeated exposure to etofenprox can cause skin irritation. Consult a veterinarian before using this product on debilitated, aged, pregnant, nursing, or animals on medication. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

FIRST AID
