**SPOT ON FLEA
& TICK CONTROL
FOR DOGS**

IMPORTANT! DO NOT USE on DOGS 6 MONTHS OF AGE or LESS. READ ENTIRE LABEL BEFORE EACH USE. USE ONLY ON DOGS. DO NOT USE ON OTHER ANIMALS!

Bio Spot Defense Spot On Flea & Tick Control for Dogs prevents flea eggs from developing into adult fleas for up to 2.5 months. Bio Spot Defense Spot On Flea & Tick Control for Dogs also kills fleas and ticks for 3 weeks and kills and repels mosquitoes for 3 to 4 weeks.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Bio Spot Defense Spot On Flea & Tick Control for Dogs works by application directly to the dog's skin, not to the hair. When applying, manually push aside dog's hair to allow direct application to the skin. Do not get this product in dog's eyes or mouth.

Note: Each package contains sufficient applicators for 6 applications.

FOR LARGE SIZE DOGS

1. Bend at perforation and tear off first applicator.
2. Hold applicator and bend area of plastic at perforation, tear off and discard. Hold applicator upright and snap tip back, away from face and body.
3. The dog should be standing for easy application. Apply Bio Spot Defense Spot On Flea & Tick Control for Dogs evenly to four or five spots on the top of the back from the shoulder to the base of the tail. At each spot, part the hair until the skin is visible. Place the tip of the tube on the skin and gently squeeze to expel a portion of the solution on the skin. Do not apply an excessive amount of the solution at any one spot that could cause some of the solution to run off the side of the dog.
4. Do not spread Bio Spot Defense Spot On Flea & Tick Control for Dogs by hand over the dog. Although the dog's skin and hair oils will naturally distribute the application over the entire dog, brushing the dog 12-24 hours after application will help to distribute the material over the skin.
5. Do not reapply product for 30 days unless re-treatment is required, but not sooner than 8 days after the initial treatment. Do not retreat more than once per month.
6. Discard empty applicator as described in Storage and Disposal.

Bio Spot Defense Spot On Flea & Tick Control for Dogs is most effective when used as part of a total flea and tick management program. Use other Bio Spot products registered for residential area control of these pests in conjunction with this treatment. Monthly treatments are required for optimal control and prevention of fleas.

The successive feeding activity of fleas on pets may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of pets with Bio Spot Defense Spot On Flea & Tick Control for Dogs rapidly kills fleas and may reduce the incidence of this condition.

Bio Spot Defense Spot On Flea & Tick Control for Dogs is water resistant and remains efficacious following exposure to rainfall or swimming.

STORAGE and DISPOSAL: Pesticide Storage: Store in a cool area away from children and animals. **Disposal: If empty:** Do not reuse applicator. Place in trash or offer for recycling if available. **If partially filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION DO NOT USE ON DOGS LESS THAN 6 MONTHS OLD.

For external use only. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Repeated exposure to etofenprox can cause skin irritation. Consult a veterinarian before using this product on debilitated, aged, pregnant, nursing, or animals on medication. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

FIRST AID

- If in eyes**
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
 - Remove contact lenses, if present, after first 5 minutes, then continue rinsing.
 - Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-234-2269 for emergency medical treatment information.

WARRANTY AND CONDITIONS OF SALE:

Seller warrants that this product conforms to the chemical specifications expressed on the label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, seller's liability for default, breach, or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.
