Gold FOGGER™

BREAKS THE FLEA LIFE CYCLE

KILLS

- Fleas
- Flea Eggs
- Ticks
- and Larvae!
- Mosquitoes

CONTROLS REINFESTATION
for up to 210 days

ACTIVE INGREDIENTS:
2-[1-Methyl-2-(4-phenoxyphenoxy) ethoxy] pyridine 0.100%
Pyrethrins 0.050%
N-Octyl bicycloheptene dicarboximide* 0.400%
Permethrin** 0.400%
Related compounds 0.035%
OTHER INGREDIENTS: 99.015%
100.000%

* MGK® 264, Insecticide Synergist
** *Cis-trans* isomers ratio: Min. 35% (+or-)cis and Max. 65% (+or-) trans
NYLAR, MGK® - Registered trademarks of McLaughlin Gormley King Company.

KEEP OUT OF REACH OF CHILDREN
CAUTION SEE ADDITIONAL PRECAUTIONARY STATEMENTS ON SIDE PANEL

NET WT 2 oz (57 g) EPA REG No. 1021-1623-2517
EPA EST. No. 11623-GA-1

FIRST AID	
IF ON SKIN OR CLOTHING:	• Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. For information regarding medical emergencies or pesticide incidents, call the International Poison Center at 1-888-740-8712.	

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed. Avoid breathing vapors or spray mist. Avoid contact with skin or eyes. In case of contact, flush with plenty of water. Wash with soap and warm water after use. Obtain medical attention if irritation persists. Avoid contamination of food or feedstuffs. Do not use in food areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed. Non-food areas are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). Not for use in USDA Meat and Poultry Plants. Remove pets, birds and cover fish aquariums before spraying.

PHYSICAL OR CHEMICAL HAZARDS
HIGHLY FLAMMABLE INGREDIENT.
INGREDIENTE ALTAMENTE INFLAMABLE.

Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting. This product contains a highly flammable ingredient. It may cause a fire or explosion if not used properly. Follow the "Directions for Use" on this label very carefully.

NYLAR®, an insect growth regulator, is similar to growth hormones that occur naturally in insects. NYLAR® inhibits development of the immature stages of the flea for 210 days preventing them from reaching the biting adult stage.

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. READ ALL DIRECTIONS COMPLETELY BEFORE USE. For use only when building has been vacated by human beings and pets. Ventilate area for 30 minutes before re-entry.
For best results, treat all infested areas. Use one fogger for each 2000 cubic feet (15.5' X 16' X 8' ceiling) of unobstructed area. Use additional units for remote rooms or where the free flow of fog is not assured.

PREPARATION: DO NOT use more than one fogger per room. DO NOT use in small enclosed spaces such as closets, cabinets or under counters or tables. Do not use in a room 5' X 5' or smaller; instead, allow fog to enter from other rooms. **Turn off ALL ignition sources such as pilot lights (shut off gas valves), other open flames or running electrical appliances that cycle off and on (i.e. refrigerators, thermostats, etc).** Call your gas utility or management company if you need assistance with your pilot lights. Remove or cover exposed food, dishes, utensils, surfaces and food-handling equipment. Shut off fans and air conditioners. Close outside doors and windows. Remove pets and birds but leave pets' bedding as this is a primary hiding place for fleas and must be treated for best results. No need to discard pet bedding after treatment. Cover or remove fish tanks or bowls. Leave rugs, draperies and upholstered furniture in place. This product will not harm furniture when used as directed. Open interior closet doors and cabinets of areas to be treated.

For more effective control of storage pests and Cockroaches, open all cupboard doors (kitchen, bathrooms, pantry), and drawers for better penetration of fog. Remove all infested foodstuffs and dispose of in outdoor trash. For flea and tick control, thoroughly vacuum all carpeting, upholstered furniture, along baseboards, under furniture and in closets. Put vacuum bag into a sack and dispose of in outside trash. Mop all hard floor surfaces.
READ ALL DIRECTIONS AND CAUTIONS BEFORE USING.
TO START FOGGING: SHAKE FOGGER WELL BEFORE USING. Hold can at arm's length with top of can pointing away from face and eyes. Break off and remove tab on side of sprayer. Push down on finger pad until it locks. This will start fogging action. Set canister in an upright position on a table, stand, etc. (up to 30 inches in height in the center of the area) and place several thicknesses of newspaper under the canister to prevent marring of the surface. Treat the whole dwelling using multiple units in homes with more than one level and numerous rooms. Leave the building at once.
DO NOT RE-ENTER BUILDING FOR TWO HOURS. After two hours, open all outside doors and windows, turn on air conditioner and /or fans and let treated area air for 30 minutes before reoccupying. If additional units are used for remote rooms or where free flow of fog is not assured, increase airing-out time accordingly.

STORAGE AND DISPOSAL:
STORAGE: Store in a cool, dry place. Keep container closed.
DISPOSAL: Do Not Puncture or Incinerate!
If Empty: Do not reuse this container. Place in trash or offer for recycling if available.
If Partly Filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

This product contains a highly flammable ingredient. It may cause a fire or explosion if not used properly. Follow the "Directions for Use" on this label very carefully.

NYLAR®, an insect growth regulator, is similar to growth hormones that occur naturally in insects. NYLAR® inhibits development of the immature stages of the flea for 210 days preventing them from reaching the biting adult stage.

Sergeant's Gold Fogger contains a combination of three insecticides that stops the flea life cycle in three ways and controls other listed insects. The first insecticide is NYLAR®, an insect growth regulator, that will not allow the flea to reproduce thereby providing long term control. The second insecticide is the botanical Pyrethrum, which provides effective quick-kill of insects upon direct contact and an added benefit of flushing the insects from their hiding place to aid in a more complete control. Permethrin, the third active insecticide, provides activity until NYLAR® takes effect.

To protect your pet against and to minimize reintroduction of adult fleas from outdoors, use EPA registered flea and tick products. Sergeant's Flea and Tick Collars, Sergeant's Flea and Tick Powder for dogs and cats, Sergeant's pet sprays, Sergeant's pet dip, Sergeant's Flea and Tick Squeeze-On's, Sergeant's Flea and Tick Shampoos in conjunction with this application and prior to reentry. As part of a complete flea and tick control program use an EPA registered outdoor spray.

For use in Apartments, Attics, Basements, Boats, Cabins, Campers, Closed Porches, Condominiums, Dormitories, Drive Ins, Drugstores, Factories, Food Plants, Garages, Homes, Hospitals, Hotels, Institutions, Kennels, Kitchens, Motels, Nursing Homes, Office buildings, Other Public Buildings, Pet Grooming Parlors, Pet Sleeping Areas, Railroad Cars, Restaurants, Rooms, Schools, Ships, Storage Areas, Supermarkets, Theaters, Trailers, Tree Houses, Trucks, Verandas, Warehouses, and Zoos.
