LICENSED

PERIOD 2014-2016 LIC. NO. **9227.186**

PRECAUTIONARY STATEMENTS - Hazards to Humans and Domestic Animals
CAUTION - Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. **Hazards to Domestic Animals:** Do not use on dogs less than 6 months old. Repeat applications may be made as necessary, but do not apply at intervals less than 7 days.

DO NOT USE ON CATS. Cats which actively groom or engage in close physical contact with recently treated dogs may be at risk of serious harmful effect. May be toxic and potentially fatal if applied or ingested by cats. Consult a veterinarian before using this product on debilitated, aged, pregnant, nursing or medicated animals. Consult a veterinarian before using this product on dogs with known organ dysfunction. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with a mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Signs of sensitivity to this product include skin sensitivity, increased itchiness, redness, rash, hair discoloration or hair loss at the application site. Dogs may also show "lethargy".

READ ENTIRE LABEL BEFORE EACH USE.
 USE ONLY ON DOGS.

Sergeant's® Bansect®
 SQUEEZE-ON FLEA & TICK CONTROL FOR DOGS

FIRST AID

If swallowed:	• Call poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
If in eyes:	• Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If on skin:	• Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

HOTLINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-781-4738 for emergency medical treatment information.

NOTE TO PHYSICIAN

Treat patient symptomatically.

Environmental Hazards: This product is extremely toxic to fish and aquatic organisms. Do not apply directly to any body of water. Treated dogs should not be allowed to go swimming for 12 hours following treatment.

Physical or Chemical Hazards: Do not use or store near heat or open flame.

What the drops do: Bansect Squeeze-On Flea & Tick Control for Dogs kills and repels fleas and ticks on your dog for up to 4 weeks. It is recommended that you also use a product labeled to treat your dog's basket and favorite sleeping areas.

Three easy to use applicators

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DO NOT USE ON CATS. May be toxic and potentially fatal if applied or ingested by cats. **How to use the drops:** For dogs weighing over 33 lb., the contents of this package provides a 3 months' supply. 1. Only open the tube immediately prior to use by holding upright and twisting the cap off, taking care not to squeeze the tube. 2. Part the dog's coat to expose the skin between the shoulder blades, at the nape of the neck, then squeeze approximately one-half the contents of one tube onto the exposed skin. 3. Next, part the dog's coat at the base of the tail, then squeeze the remaining contents of the tube onto exposed skin. If the dog's coat is subsequently wetted, such as when shampooing, the 4 week period of protection may be reduced.

Additional precautions to protect your dog: 1. Do not massage the drops into the dog's skin. Avoid applying to the dog's fur. 2. Do not administer any other flea control product to your dog during the 4 week period of protection. 3. Retreat after 28 days if reinfestation is apparent.

Additional precautions to protect your family: Do not allow children to play with tubes. A pet treated with this product should not sleep with people, particularly children, for 8 hours immediately following treatment. Do not handle the area of application for 3 to 6 hours following treatment.

What else you must do: Treating your dog's basket and favorite sleeping areas with a suitable insecticidal product labeled for this use and vacuuming these areas regularly will also help to remove fleas and ticks. Consult your veterinarian for product recommendations.

STORAGE AND DISPOSAL

Storage: Do not remove tube from the pack until ready to use. Store in a cool (below 25°C) dry place out of reach of children. Do not refrigerate. Protect from direct sunlight. **Dispose:** If empty: Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. **Never place unused product down any drain or into your drain.** For more information, call 1-800-224-PETS, between the hours of 8:00 am-4:00 pm CST, Monday-Friday, or write Sergeant's Consumer Response, P.O. Box 540399, Omaha, NE 68154-0399. Visit us at www.segants.com.

In case of Emergency, Call: 1-800-781-4738, 24 hours a day.
