1 Remove one applicator tube from the package and hold in an upright position pointed away from your face.

2 Pull off cap. Turn the cap around and place on top of tube.

3 Simply press cap down to break the seal of the tube. Remove cap carefully.

4 Position the tip of the tube on the dog's back between the shoulder blades. Use the tip of the tube to part the dog's hair so that the product will be applied at skin level.
