F. H. Johnson

ENVIRONMENTAL HAZARDS:

Do not apply to water.

PHYSICAL & CHEMICAL HAZARDS – Do not pry open or probe into unit with any instrument or tool. Use only with two 1.5 volt AAA alkaline batteries. Do not cover the unit when in use or place it near sources of heat or ignition. Do not store near heat or open flame. Do not put batteries in fire or mutilate. Batteries may burst or release toxic materials.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place away from heat or flame in an area inaccessible to children.

DISPOSAL: Non-refillable disk. Before disposing, fully use up the refill disk according to the label. Do not refill or reuse the disk.

If empty: Place the refill disk in the trash or offer for recycling if available.

If refill remains partially unused: Call your local solid waste agency or 800-529-3394 for disposal instructions. Never place unused product down any indoor or outdoor drain.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS:**
CAUTION: Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with skin, eyes or clothing. Avoid breathing vapor. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. Store away from food, beverages and pet food. Do not use indoors or in enclosed spaces. Do not touch device with metal instruments or wet hands. Do not allow materials of any kind to cover the unit while it is in use. Replace refill only when unit is off.

FIRST AID: Call a poison control center or doctor immediately for treatment advice.

- If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told by a poison control center or doctor. Do not give anything to an unconscious person.
- If on Skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
- If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Have product container or label with you when calling a poison control center or doctor or going for treatment.

For additional information in case of emergency, call toll free 800-558-5252.

Be sure to wash hands after handling.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read and follow all directions and precautions on this product label.

Remove foil seal

Front cover latch

Insert orange side down

When green use-up indicator dries up, it's time to replace the refill.

Battery door (under clip)

On/Off switch (●/○)

TO PREPARE UNIT:

1. Remove one mosquito repellent refill from its packaging and **REMOVE** the peel-off foil seal to start the green use-up indicator. Do not touch treated pad when inserting or removing the refill.
2. Open front cover latch and insert refill into unit with orange side down, then snap the front cover latch closed. Wash hands thoroughly and immediately after handling the refill.

TO OPERATE UNIT:

3. Slide the ON/OFF switch all the way to "●" (solid dot).
4. Clip the unit to your belt, pants/shorts waistband, purse or any other convenient location next to you. Rotate if desired.
5. When finished using the unit, slide the ON/OFF switch to "○".

USEFUL TIPS:

- Unit includes a rotating clip for desired comfort.
- Within minutes, the unit creates head-to-toe protection from mosquitoes for up to 12 hours. If you move, allow a few minutes for the unit to rebuild its personal protection.
- You can also place the unit next to you on a table, bench or other suitable hard surface (away from food and sources of heat, ignition, or moisture). When placing unit on a surface, lay the unit on its clip to allow open circulation of repellent.
- To prolong the refill's life between uses, close the unit by sliding the switch to the "○" position. Store the unit in a cool, dry place—never in a hot car, glove compartment, or trunk.
- Replace the refill when the green use-up indicator dries up (Repeat Steps 1 and 2). **For best results, replace refill 14 days after opening or after 12 hours total use.** Only OFF!® Clip●On™ refills should be used in the unit.
- When you no longer feel air blowing from bottom of the unit, replace with two 1.5 volt AAA alkaline batteries.

Batteries are included.
