PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse. **First Aid: If Swallowed:** Immediately call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconcious person. **If on Skin or Clothing:** Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.Have the product container or label with you when calling a poison control center or doctor or going for treatment. **Note to Physician:** Propoxur is a reversible cholinesterase inhibitor. Atropine sulfate is antidotal and should be administered only if symptoms persist. **Environmental Hazards:** This product is toxic to wildlife and aquatic invertebrates. Birds and small animals feeding on treated bait may be killed. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. **DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.Refer to card/box for complete Directions for Use. **Storage:** Store in a cool, dry (preferably locked) storage area inaccessible to children and pets. Keep pesticide in original containers. **Disposal: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

FIRST AID

If Swallowed: Immediately call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconcious person.
If on Skin or Clothing: Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment.
Note to Physician: Propoxur is a reversible cholinesterase inhibitor. Atropine sulfate is antidotal and should be administered only if symptoms persist.

ENVIRONMENTAL HAZARDS

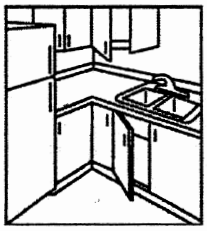
This product is toxic to wildlife and aquatic invertebrates. Birds and small animals feeding on treated bait may be killed. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

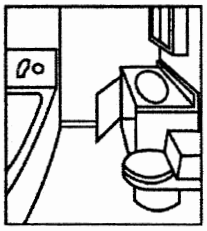
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
READ ENTIRE LABEL BEFORE USING. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.
READ INSTRUCTIONS BEFORE PRESSING IN SEMI-PERFORATED HOLES.

General Precautions and Restrictions
Place bait trays in areas inaccessible to children and domestic animals. Do not contaminate feed, food products, food preparation surfaces, dishes, kitchen utensils or food containers.
Application Instructions: Place bait trays where you have noticed infestation and where roaches are numerous - on shelves, in drawers, baseboards, under sinks, stoves and refrigerators, in bathrooms, etc.

Find indented sections on the sides of the can. Simply apply pressure with a key until they open (see illustration). For best results use 2 to 3 trays per 50 square feet of surface area to be treated. More bait trays may be needed if infestation is great. For continuous good results check regularly and replace every four weeks or as needed. Death occurs soon after feeding. Roaches leave bait tray and return to hiding places to die.





STORAGE: Store in a cool, dry (preferably locked) storage area inaccessible to children and pets. Keep pesticide in original containers. **DISPOSAL: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

Notice: Buyer assumes all responsibility for safety and use not in accordance with directions.
MONEY BACK GUARANTEE: If TAT Roach Killer VI does not provide satisfactory results return both bait trays, in their original package, to Walco-Linck.
