DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USE. HOLD CONTAINER UPRIGHT. APPLY IN SHORT BURSTS.

For Residential Use Only.

General Precautions and Use Restrictions: Cover or remove exposed food, all food processing surfaces and utensils before treatment or thoroughly wash before use following treatment. Remove pets and birds and cover fish aquariums before spraying. Do not use in indoor metered spray systems. Do not use in automatic misting systems. Do not use on edible crops. Kills many flying insects including: flies, houseflies, cluster flies, face flies, vinegar flies, fruit flies, and other biting flies, mosquitos, gnats, and small flying moths.

INDOORS: Close doors and windows. Direct spray upward to center of room, using slow, sweeping motion. Direct spray to all parts of the room, especially near light sources. In kitchens, treat areas that attract insects such as window screens and around windows, sinks, and garbage cans. Keep spray away from walls, drapes, and furniture. Spray 5-10 seconds for average room. Do not remain in treated area. Keep room closed for 15 minutes. Ventilate thoroughly before re-entry.

OUTDOORS: To kill these insects, spray when air is calm using slow, sweeping motion. If a slight breeze is present, spray with the wind. Allow fog to drift over treated area. Spray around porches, patios, screens, doors, window frames and screens, and garbage cans. If spraying around growing plants, keep spray at least 24 inches from foliage to avoid plant injury. Allow spray to dissipate before occupying the treated area.
