HTH SOCK IT SHOCK 'N SWIM SHOCK TREATMENT

Kills bacteria, Destroys organic contaminants, Restores a Crystal Clarity to Pool Water

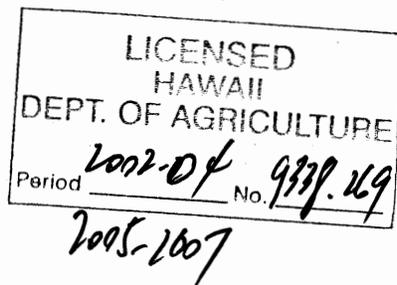

KEEP OUT OF REACH OF CHILDREN DANGER

SEE PRECAUTIONARY STATEMENTS ON BACK PANEL

ACTIVE INGREDIENT:

CALCIUM HYPOCHLORITE.....	47.6%
INERT INGREDIENTS.....	52.4%
TOTAL.....	100%

Minimum Available Chlorine 45%

FIRST AID:

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

Net Wt. 1 Lb (0.45 Kg)

LICENSED

PERIOD 2011-2013 LIC. NO.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

This product is a concentrated chlorinating agent. It is in a dry, free-flowing form. It kills bacteria and destroys organic contaminants in pools.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

HOW TO USE

USE ENTIRE CONTENTS WHEN OPENED.

Add the recommended dosages of this product while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool.

DOSAGE RATE:

Adjust and maintain pH to 7.2 - 7.6 with HTH pH Plus or HTH pH Minus. Follow label directions. Add 1 lb. (16 oz.) of this product per 10,000 gallons of water weekly to help prevent pool problems. An additional shock treatment {1 lb. (16 oz.) per 10,000 gallons of water} may be required to correct problems which are caused by: visible algae, high bathing loads, heavy wind and rainstorms. Additional shock treatments will also remove unpleasant odors and eye irritation. Do not reenter pool until the free available chlorine residual is 1.0 to 3.0 ppm. Shock treat your pool when opening, then weekly to prevent pool problems.

WATER BALANCE:

For best product performance, swimmer comfort and crystal clear water:

- * Maintain pH in the 7.2-7.8 range
- * Maintain total alkalinity in the 60-100 parts per million (ppm) range
- * Maintain calcium hardness above 200 ppm.
- * Maintain available chlorine level at 1-3 ppm with the use of your normal sanitizer.

Use a reliable test kit that measures all these ranges. Use the HTH Pool Care Products to make adjustments. Follow label directions for each product.

STORAGE & DISPOSAL

Keep this product dry in its tightly closed container when not in use.

Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not reuse empty container. Place in trash collection.

Do not contaminate food or feed by storage or disposal or cleaning of equipment.

DISPOSAL FOR A CONTAMINATED OR DECOMPOSING PRODUCT

DO NOT reseal container if the product: gives off heat, gives off hazardous gases, bubbles. Isolate it (if possible). Next, flood decomposing product with large amounts of water to dissolve this product. Then, throw away the container and any contaminated material in an approved landfill area.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER.

Corrosive.

Causes irreversible eye damage or skin burns. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Wear goggles or face shield. Wear protective clothing and rubber gloves. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

CHEMICAL HAZARDS: DANGER. Strong oxidizing agent. Add only into water. Contamination may start a chemical reaction. This reaction can give off heat, hazardous gases and may cause a fire or explosion. DO NOT touch this chemical with a flame or burning material, (like a lighted cigarette). Keep all of these away from this product: moisture, garbage, dirt, chemicals including other pool chemicals, pool chlorinating compounds, household products, cyanuric acid pool stabilizers, soap products, paint products, solvents, acids, vinegar, beverages, oils, pine oil, dirty rags or any other foreign matter.

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms.

EMERGENCY HANDLING: In case of contamination or decomposition:

Do not reseal container.

Place the container in an open and well ventilated area by itself (if possible).

Flood with large amounts of water until the material is dissolved.

Place contaminated material in an approved landfill area.
