SUPER SOCK IT® shock 'n swim

removes organic waste and produces sparkling clean swimming pool water

Elimina los desechos orgánicos y deja el agua de la piscina cristalina

shock

ACTIVE INGREDIENT:

CALCIUM HYPOCHLORITE	62.4%
OTHER INGREDIENTS	37.6%
TOTAL	100%
Available Chlorine	60%

KEEP OUT OF REACH OF CHILDREN
MANTENER FUERA DEL ALCANCE DE LOS NIÑOS

DANGER: Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water. Do not mix this product with a small amount of water. Only add directly to your pool. Highly Corrosive. Causes skin burns and irreversible eye damage. May be fatal if swallowed. Harmful if absorbed through the skin.
Read all Precautionary Statements on label and First Aid statements before use.
For the authority having jurisdiction over fire code enforcement: This product meets the NFPA criteria for a class one oxidizer.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. **NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **IN CASE OF EMERGENCY CALL: 1-800-654-6911**

Net Wt. 1 lb. (16 oz.) (0.45 kg)

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

METHOD OF APPLICATION. HOW TO USE: Do not pre-mix this product. Only add this product directly to your pool. Use entire contents when opened.

Method for dosing directly into pool: Add the recommended dosage of this product during evening hours while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If any granules settle to the bottom of the pool use brush to disperse.

Method for skimmer addition: Make sure that filter pump is on and properly recirculating through skimmer. Empty skimmer of all chemicals and/or debris. Contamination may cause an explosion or the release of toxic gases. Do not use this method when an automatic chemical dispensing device (e.g. feeder) is present. Pour this product slowly into skimmer, making sure that the material is drawn into the system at the same rate: Do not allow this material to accumulate as toxic gases may be generated.

POOL SHOCK TREATMENT: Add the recommended dosages of this product while the filter pump is running. See "METHOD OF APPLICATION". When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool.

DOSEAGE RATE: Adjust and maintain pH to 7.2 - 7.4 with HTH® pH Plus® or HTH pH Minus. Follow label directions. Allow the pH adjustment chemicals to disperse and add 1 lb. of this product per 14,000 gallons of water weekly to help prevent pool problems. Use entire contents of bag when opened.

Additional shock treatments may be required to correct problems which are caused by: • visible algae; • high bathing loads; • heavy wind and rainstorms. Additional shock treatments will also remove: • unpleasant odors, • eye irritation.

Do not re-enter pool until the free available chlorine residual is 1 to 4 ppm. Shock treat your pool when opening then weekly to prevent pool problems.

ALGAE CONTROL: If the sides or bottom of your pool develop algae spots, direct this product as close to the algae as possible. Follow "POOL SHOCK TREATMENT" directions. Note: Prolonged contact with pool surfaces may cause staining or bleaching. Immediately after treatment thoroughly clean pool by brushing surface of algae growth, vacuum and cycle through filter. If necessary, repeat the treatment. Pool should not be entered until the chlorine residual is 1 to 4 ppm.

WATER BALANCE: For best product performance, swimmer comfort and crystal clear water: Maintain pH in the 7.2-7.6 range. Maintain total alkalinity in the 60-100 ppm range. Maintain calcium hardness above 200 ppm. Maintain available chlorine level at 1-4 ppm with the use of your normal sanitizer. Use a reliable test kit that measures all these ranges. Use the HTH Pool Care products to make adjustments. Follow label directions for each product.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS. DANGER: Highly Corrosive. Causes skin burns and irreversible eye damage. May be fatal if swallowed. Harmful if absorbed through skin. Irritating to nose and throat.

• Open in a well ventilated area. Avoid breathing dust and fumes. • Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear goggles and use rubber gloves. For additional protection of skin wear long sleeves and long pants. • Remove and wash contaminated clothing separately before reuse. • Only use utensils which are thoroughly clean and dry. • Wash thoroughly with soap and water after handling.

PHYSICAL AND CHEMICAL HAZARDS. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water. • Do not mix this product with a small amount of water. Only add this product directly to your pool. • Do not allow to become wet or damp before use.

Can react with other materials, including other water treatment products, to cause intense fire, explosion, and the release of toxic gases. • Keep all foreign matter, including other water treatment products, away from this product. • Do not allow this product to contact other water treatment products. Do not use this product in a floater or feeder that has been used with any other product. If used

with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in a skimmer.

Exposure to heat can cause this product to rapidly decompose, leading to intense fire, explosion, and the release of toxic gases. • Store in a cool, dry, well-ventilated area.

Strong oxidizing agent. This product can increase fire intensity.

• Keep away from heat and from flame and burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL: Keep this product dry in its tightly closed container. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse and discard empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. **FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING".**

EMERGENCY HANDLING: In case of contamination or decomposition, do not reseal container.

Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water until the material is dissolved. Dispose of container and any remaining contaminated material in an approved landfill area.
