3" Chlorinating Tablets

- *Sanitizes pool water*

Active Ingredient:

Trichloro-s-Triazinetrione99%

Other Ingredients.....1%

Total100%

KEEP OUT OF REACH OF CHILDREN DANGER

Contamination or improper use may cause fire or explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not mix this product with a small amount of water. Only add directly to your pool or spa. Do not remove floater or other dispensing device from water for more than five minutes if it contains a tablet or tablet residue. Corrosive.

Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed.

Read all precautionary statements and first aid statements before use.

See back panel for Precautionary and First Aid Statements.

Net Wt. 5 lbs.

USE DIRECTIONS: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

WHY YOU SHOULD USE THIS PRODUCT: Pool Breeze® Pool Care System 3" Chlorinating Tablets are formulated to protect against chlorine loss in direct sunlight and can be used in floaters, feeders or skimmers. These convenient and easy to use tablets are designed to dissolve slowly providing a steady source of available chlorine (up to one week) for complete swimming enjoyment in your pool.

Always use Pool Breeze® products for regular shock treatment. Additional shocking to keep water clean and clear is recommended after: rain and heavy winds; high number of swimmers; increased water temperature; and/or increased frequency of pool usage.

Take a pool water sample to your authorized Pool Breeze® dealer regularly for a detailed water analysis.

This concentrated pool chlorinating 7 ounce tablet is designed to dissolve slowly, providing a steady source of available chlorine in swimming pools to control the growth of algae, kill bacteria and destroy organic contaminants. Reentry into treated swimming pool is prohibited above levels of 4 ppm of chlorine.

HOW TO USE: For best results use an automatic chlorine feeder, or floating dispenser designed for this product, or place this product in the skimmer basket. **DO NOT allow this product to get damp or wet before use. DO NOT allow this product to contact other water treatment products.** • **DO NOT** use in floaters or feeders that have been used with other dry chlorinating products. • If placed in skimmer, run the pump a minimum of eight hours daily. Make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in the skimmer. • **DO NOT** use with any other tablets or sticks in the same skimmer, floater or feeder. • **DO NOT** permit tablets to contact plastic pool linings or metal objects. • **DO NOT** throw tablets directly into pool.

WATER BALANCE: To provide optimum product performance, swimmer comfort and crystal clear water, always maintain pH from 7.2 to 7.6, total alkalinity from 80 to 120 parts per million (ppm), and calcium hardness above 200 ppm. Test frequently using a reliable test kit that measures all these ranges. Make any necessary adjustments promptly with the appropriate products.

OPENING YOUR POOL: Balance pool water, shock treat or super chlorinate with a Pool Breeze® shock product. Follow label directions. Stabilize your pool water using Pool Breeze® Stabilizer and Conditioner. Then follow ROUTINE CHLORINATION directions.

ROUTINE CHLORINATION: For best results, see "WATER BALANCE" section above before treatment. Add one 7 ounce tablet per 10,000 gallons of pool water every week or as often as needed to maintain a chlorine residual at 1 - 4 ppm. Follow

"HOW TO USE". Maintain water as stated in WATER BALANCE. The dosage may vary depending upon bath load, water temperature and other conditions. Pool should not be entered until the chlorine residual is 1 - 4 ppm as measured with a Pool Breeze® test kit.

As a preventative treatment, you should shock treat the pool with a shock product weekly to burn out organic material and to keep water sparkling clear.

ALGAE CONTROL: For preventative algae control, use your preferred Pool Breeze® algicide product regularly.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. Harmful if swallowed. Irritating to nose and throat.

- Open in a well-ventilated area. **DO NOT** breathe dust or fumes.
- **DO NOT** get in eyes, on skin, or on clothing.
- Wear goggles and rubber gloves when handling this product. For additional protection of skin, wear long sleeves and long pants.
- Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.
- Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS:

DANGER. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not add water to this product. Add only into water. • **DO NOT** allow to become wet or damp before use. • **DO NOT** remove floater or other dispensing device from water for more than five minutes if it contains a tablet or tablet residue.

Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases. • Keep all foreign matter, including other water treatment products, away from this product. • **DO NOT** use this product in a floater or feeder that has been used with any other product. • **DO NOT** allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in the skimmer. **Strong oxidizing agent. This product can increase fire intensity.** • Keep away from heat and from flame and burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

STORAGE & DISPOSAL: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING.

EMERGENCY HANDLING: In case of contamination or decomposition – Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.
