

#### DIRECTIONS TO USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For best results follow a weekly routine with the **BAQUACIL® System** or **BAQUACIL® CDX System**. Consult with your Authorized **BAQUACIL® Dealer** for advice on the system that best suits your pool and your lifestyle.

Take a pool water sample to your Authorized **BAQUACIL® Dealer** regularly for a detailed water analysis.

**BAQUACIL® Performance Algicide** is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using **BAQUACIL® Performance Algicide**.

For pools having just visible algae growth, add an initial dose of 11 to 17 fluid ounces of **BAQUACIL® Performance Algicide** per 10,000 gallons of water and remove settled algae.

For treatment of freshly cleaned and filled pools, add 6 to 11 fluid ounces of **BAQUACIL® Performance Algicide** per 10,000 gallons of water.

Make subsequent additions of 2 to 4 fluid ounces of **BAQUACIL® Performance Algicide** per 10,000 gallons of water every 5 to 7 days after initial treatment for maintenance.

**BAQUACIL® Performance Algicide** will prevent growth of most algae during the off-season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 6 to 10 fluid ounces of **BAQUACIL® Performance Algicide** per 10,000 gallons of water. If at the end of swimming season pools have some visible algae growth, add 12 to 17 fluid ounces per 10,000 gallons. It is necessary that a uniform distribution of algicide throughout the water and the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the season.

**BAQUACIL® Performance Algicide** is compatible with those chemicals normally used to treat pools and is effective at both acid and alkaline pH. **BAQUACIL® Performance Algicide** can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix **BAQUACIL® Performance Algicide** with concentrated dry or liquid chlorine products.

### KEEP OUT OF REACH OF CHILDREN CAUTION

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

**CAUTION:** Harmful if swallowed. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

#### FIRST AID

**IF SWALLOWED:** • Call poison control center or doctor immediately for treatment advice. • Have person sip a glass of water, if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.

**IF IN EYES:** • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

#### MEDICAL EMERGENCY INFORMATION CENTER: 1-800-654-6911

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish, aquatic invertebrates and clams.

#### PHYSICAL OR CHEMICAL HAZARDS:

This product contains a reducer. Keep away from oxidizing agents.

#### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

**PESTICIDE STORAGE:** Do not stack more than four drums high. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

#### CONTAINER DISPOSAL:

Keep this product in its tightly closed container when not in use. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment.
