DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling. **READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.**

SHAKE WELL BEFORE USE.

WHY YOU SHOULD USE THIS PRODUCT: This product when used regularly, will kill and control the growth of green algae for complete pool enjoyment. For best results, use with other HTH® pool care products. For crystal clear pool water, follow our 4 step pool care program. **Step 1:** Test and adjust water balance. **Step 2:** Sanitize and clarify using an EPA approved product. **Step 3:** Shock at least once a week. **Step 4:** Add algacide regularly.

When used regularly this product will kill and control the growth of swimming pool algae. This product may be used in the same treatment program as most commonly used pool chemicals, but should not be mixed with any foreign material such as soap or other water treatment chemicals. This product works best when added in several places to the pool with the pump or circulation system running. Wait 15 minutes before entering the pool or spa. Pools with heavy growth of algae should be cleaned prior to using this product.

INITIAL DOSE: Add 4 ounces of this product to 10,000 gallons of pool water when filling the pool at the beginning of the season.

MAINTENANCE DOSE: Add 1 ounce of this product per 10,000 gallons of pool water at 3 - 5 day intervals. If high temperatures prevail or the pool has an unusually heavy use, add maintenance dose more frequently. If make up water is added at the rate of more than 10% of pool capacity per week, add 1 ounce per 10,000 gallons of fresh make up water added per week.

VISIBLE ALGAE: If the pool has slight visible algae growth, treat with "Initial Dose" as above. Vacuum pool after 24 hours to remove algae debris. If visible algae is still present or re-appears, repeat this treatment as necessary. When pool is free of visible algae, use the "Maintenance Dose" as above.

STORAGE AND DISPOSAL: Keep container closed when not in use in an area inaccessible to persons unfamiliar with its use. Do not use or store near heat or open flame. Do not reuse containers. Discard in trash.

PRECAUTIONARY STATEMENTS - HAZARD TO HUMANS AND DOMESTIC ANIMALS - DANGER, Keep Out of Reach of Children. Corrosive. Causes irreversible eye damage and skin irritation. May be fatal if absorbed through the skin. Harmful if swallowed. Do not get in eyes on skin or on clothing. Wear protective eyewear (goggles, face shield, or safety glasses), rubber gloves and protective clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash clothing before reuse.

FIRST AID: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. **IN CASE OF EMERGENCY CALL: 1-800-654-6911.** **CHEMICAL HAZARDS:** Combustible. Do not use or store near heat or open flame. **ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.
