POOLIFE®

EXCLUSIVE POOL CARE COLLECTION

Granular Chlorinator And Shock 'n Swim

SHOCK TREATMENT

- Routine chlorinator and shock treatment
- Ideal for vinyl and concrete pools
- Kills bacteria, controls algae and destroys organic contaminants

Will not cause overstabilization

ACTIVE INGREDIENT:

Calcium Hypochlorite54.6%

OTHER INGREDIENTS45.4%

TOTAL100%

Available Chlorine.....53%

KEEP OUT OF REACH OF CHILDREN

DANGER: Contamination or improper use may cause fire or explosion. DO NOT mix with other chemicals, including other pool chlorinating compounds. Add only into water. Read all precautionary statements on back label and first aid statements below, before use.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IN CASE OF EMERGENCY CALL: 1-800-654-6911

PERIOD 2008-2010 LIC. NO.

Department of Agriculture STATE OF HAWAII

LICENSED

PERIOD 2011-2013 LIC. NO.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling. **READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.**

METHOD OF APPLICATION: Measure only with the clean, dry cup if provided. Do not use the cup for any other purpose. Add this product during evening hours while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If any of the granules settle to the bottom of the pool use brush to disperse. Let pump run 6 to 8 hours minimum after applying.

ROUTINE CHLORINATION: Throughout the pool season, adjust pH to 7.2 – 7.6 and add 7 to 10 oz. of this product per 10,000 gallons of pool water daily or as often as needed to maintain chlorine residual at 1–4 parts per million (ppm). If you have stabilized your pool using HTH Stabilizer & Conditioner (or similar product) add 4 to 6 oz. per 10,000 gallons every other day or as often as needed to maintain a chlorine residual at 1-4 ppm. Follow "Method of Application".

As a preventative treatment, you should shock treat your pool once a week to prevent pool problems. In addition to weekly shock treatment, you should shock treat to remedy problems which may occur when bathing loads are high, water appears hazy or dull, unpleasant odors or eye irritation occur, after heavy wind and rainstorms, or if algae does develop with resulting green color and slimy feeling walls

POOL SHOCK TREATMENT: Add the recommended dosages of this product while the filter pump is running. See "METHOD OF APPLICATION." When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool.

DOSAGE RATE: Adjust and maintain pH to 7.2 – 7.4 with POOLIFE pH Plus® or POOLIFE pH Minus. Follow label directions. Add 1 lb. (16 oz.) of this product per 12,000 gallons of water weekly to help prevent pool problems. Additional shock treatments may be required to correct problems which are caused by visible algae, high bathing loads, or heavy wind and rainstorms. Additional shock treatments will also remove unpleasant odors and eye irritation. Do not reenter pool until the free avail-

able chlorine residual is 1-4 ppm. Shock treat your pool when opening, then weekly to prevent pool problems.

ALGAE CONTROL: If the sides or bottom of your pool develop algae spots, direct this product as close to the algae as possible. Follow "SHOCK TREATMENT" directions. Note: Prolonged contact with pool surfaces may cause staining or bleaching. Immediately after treatment thoroughly clean pool by brushing surface of algae growth, vacuum and cycle through filter. If necessary, repeat the treatment. Pool should not be entered until the chlorine residual is 1 to 4 ppm.

OPENING YOUR POOL: Follow "SHOCK TREATMENT" directions. Allow 30 minutes for product to disperse and test chlorine residual with a pool test kit. Repeat dosage, as needed, until chlorine residual is 1 to 4 ppm.

WINTERIZING: While the water is still clear and clean, prepare for long periods of disuse by gradually adding 1 lb. of this product per 7,000 gallons of pool water. Follow "METHOD OF APPLICATION". Run the filter until completely dissolved. Cover the pool with a pool cover and prepare the heater, pump and filter components for winterizing by following manufacturers directions.

WATER BALANCE: For best product performance, swimmer comfort and crystal clear water: Maintain pH in the 7.2–7.6 range. Maintain total alkalinity in the 60–100 ppm range. Maintain calcium hardness above 200 ppm. Maintain available chlorine level at 1–4 ppm with the use of your normal sanitizer. Use a reliable test kit that measures all these ranges. Use the POOLIFE Pool Care products to make adjustments. Follow label directions for each product.

STORAGE & DISPOSAL: Do not contaminate food or feed by storage, disposal, or cleaning of equipment. Keep this product in a tightly closed container, when not in use. Store in cool dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding this container. Container Disposal: Place in trash collection. Do not reuse empty container. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PROD-

UCT SEE EMERGENCY HANDLING.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

DANGER: HIGHLY CORROSIVE. Causes skin burns and irreversible eye damage. Harmful if absorbed through skin. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear protective clothing. Do not handle with bare hands. Wear goggles or face shield, and use rubber gloves. Only use utensils which are thoroughly clean and dry. Irritating to nose and throat. Avoid breathing dust and fumes. Remove contaminated clothing and wash clothing before reuse. Wash thoroughly with soap and water after handling.

CHEMICAL HAZARDS: DANGER. Strong oxidizing agent. Add only into water. Use only clean dry utensils to dispense this product. Do not use this product in a dispensing device that has been used with any product other than Calcium Hypochlorite. **KEEP ALL OF THESE AWAY FROM THIS PRODUCT: MOISTURE, DIRT, DIRTY RAGS, GARBAGE, CHEMICALS INCLUDING OTHER POOL CHEMICALS (SUCH AS CYANURIC ACID POOL STABILIZERS), OTHER POOL CHLORINATING COMPOUNDS (SUCH AS TRICHLORO-S- TRIAZINETRIONE OR SODIUM DICHLORO-S-TRIAZINETRIONE), HOUSEHOLD PRODUCTS, SOAP PRODUCTS, PAINT PRODUCTS, SOLVENTS, ACIDS, VINEGAR, BEVERAGES, OILS, PINE OIL, OR ANY OTHER FOREIGN MATTER. CONTAMINATION MAY START A CHEMICAL REACTION THAT CAN GIVE OFF HEAT AND HAZARDOUS GASES AND MAY CAUSE A FIRE OR EXPLOSION. DO NOT** touch this chemical with a flame or burning material, (like a lighted cigarette).

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

EMERGENCY HANDLING: In case of contamination or decomposition:

1. Do not reseal container.
2. Place the container in an open and well ventilated area by itself (if possible).
3. Flood with large amounts of water until the material is dissolved.
4. Dispose of the container and any remaining contaminated material in an approved landfill area.
