

container. Place in trash collection. **DO NOT** contaminate food or feed by storage or disposal or cleaning of equipment. For disposal of a contaminated or decomposing product see EMERGENCY HANDLING.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: HIGHLY CORROSIVE. Causes skin burns and irreversible eye damage. Harmful if absorbed through skin. **MAY BE FATAL IF SWALLOWED. DO NOT** get in eyes, on skin or on clothing. Wear protective clothing. **DO NOT** handle with bare hands. Wear goggles or face shield, and use rubber gloves. Only use utensils which are thoroughly clean and dry. Irritating to nose and throat. Avoid breathing dust and fumes. Remove contaminated clothing and wash clothing separately before reuse. Wash thoroughly with soap and water after handling.

CHEMICAL HAZARDS: DANGER. STRONG OXIDIZING AGENT. Add only into water. Use only clean dry utensils to dispense this product. **DO NOT** use this product in a dispensing device that has been used with any product other than Calcium Hypochlorite. **KEEP ALL OF THESE AWAY FROM THIS PRODUCT: MOISTURE, DIRT, DIRTY RAGS, GARBAGE, CHEMICALS INCLUDING OTHER POOL CHEMICALS (SUCH AS CYANURIC ACID POOL STABILIZERS), OTHER POOL CHLORINATING COMPOUNDS (SUCH AS TRICHLORO-S-TRIAZINETRIONE OR SODIUM DICHLORO-S-TRIAZINETRIONE), HOUSEHOLD PRODUCTS, SOAP PRODUCTS, PAINT PRODUCTS, SOLVENTS, ACIDS, VINEGAR, BEVERAGES, OILS, PINE OIL, OR ANY OTHER FOREIGN MATTER. CONTAMINATION MAY START A CHEMICAL REACTION THAT CAN GIVE OFF HEAT AND HAZARDOUS GASES AND MAY CAUSE A FIRE OR EXPLOSION. DO NOT** touch this chemical with a flame or burning material, (like a lighted cigarette).

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms.

EMERGENCY HANDLING: In case of contamination or decomposition: **DO NOT** re-seal container. • Place the container in an open and well-ventilated area by itself (if possible). • Flood with large amounts of water until the material is dissolved. • Dispose of container and any remaining contaminated material in an approved landfill area.

granular shock treatment

- Kills bacteria, controls algae and destroys organic contaminants
- Restores crystal clarity to pool water
- Good for all pool surfaces
- No need to predissolve

Will not cause over-stabilization

ACTIVE INGREDIENT:
Calcium Hypochlorite 62.4%
OTHER INGREDIENTS 37.6%
TOTAL 100%
Available Chlorine 60%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

Contamination or improper use may cause fire or explosion. **DO NOT** mix with other chemicals, including other pool chlorinating compounds. Add only into water. Read all Precautionary Statements on back label and First Aid statements below before use.

Net Wt. 1 lb. (453.6 g)

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**IN CASE OF EMERGENCY
CALL: 1-800-654-6911**

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is a concentrated chlorinating agent. It is in a dry, free-flowing form. It kills bacteria, controls algae and destroys organic contaminants in pools. **READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.**

METHOD OF APPLICATION: Use entire bag when opened. Add the recommended dosages of this product during evening hours while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If any of the granules settle to the bottom of the pool use brush to disperse. Let pump run 6 to 8 hours minimum after applying.

POOL SHOCK TREATMENT: Add the recommended dosages of this product while the filter pump is running. See METHOD OF APPLICATION. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. **DOSAGE RATE:** Adjust and maintain pH to 7.2 - 7.4 with Pool Breeze® pH Increaser or Pool Breeze pH Decreaser. Follow label directions. Allow pH adjustment chemicals to disperse and add 16 to 32 ounces per 15,000 gallons (one to two bags) of water weekly to help prevent pool problems. Use entire contents of bag when opened. Additional shock treatments may be required to correct problems which are caused by: visible algae; high bathing loads; heavy wind and rainstorms. Additional shock treatments will also remove: unpleasant odors, eye irritation. **DO NOT** reenter pool until the free available chlorine residual is 1 to 4 ppm. Shock treat your pool when opening, then weekly to prevent pool problems.

SUPER CHLORINATION: In the summer months when the pool water temperature is 80° F or above, or if the chlorine residual falls rapidly after regular chlorination, super chlorination is recommended. Super chlorinate the pool by adding 1 bag of this product per 8,000 gallons of water every other week. **DO NOT** use the pool until the chlorine residual has dropped to 4 ppm.

ALGAE CONTROL: If the sides or bottom of your pool develop algae spots, direct this product as close to the algae as possible. Follow "Shock Treatment" directions. **NOTE:** Prolonged contact with pool surfaces may cause staining or bleaching. Immediately after treatment thoroughly clean pool by brushing surface of algae growth, vacuum and cycle through filter. If necessary, repeat the treatment. Pool should not be entered until the chlorine residual is 1 to 4 ppm.

OPENING YOUR POOL: Follow "Shock Treatment" directions. Allow 30 minutes for product to disperse and test chlorine residual with a pool test kit. Repeat dosage, as needed, until chlorine residual is 1 to 4 ppm.

WINTERIZING: While the water is still clear and clean, prepare for long periods of disuse by gradually adding 1 lb. of this product per 8,000 gallons of pool water (to provide a dosage of 10 ppm free available chlorine). Follow "Method of Application". Run the filter until completely dissolved. Cover the pool with a pool cover and prepare the heater, pump and filter components for winterizing by following manufacturers' directions.

WATER BALANCE: For best product performance, swimmer comfort and crystal clear water: Maintain pH in the 7.2 - 7.6 range. Maintain total alkalinity in the 60-100 ppm range. Maintain calcium hardness above 200 ppm. Maintain available chlorine level at 1-4 ppm with the use of your normal sanitizer. Use a reliable test kit that measures all these ranges. Use Pool Breeze Pool Care products to make adjustments. Follow label directions for each product.

STORAGE & DISPOSAL: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. **DO NOT** reuse empty
