POOL breeze® pool care system

Chlorinating Caplets

- Sanitizes pool water
- No need to touch the chlorine

Active Ingredient:

Calcium Hypochlorite	68%
Other Ingredients	32%
Total	100%

Minimum
Available Chlorine.....65%

KEEP OUT OF REACH OF CHILDREN DANGER

Contamination or improper use may cause intense fire, explosion, or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not mix this product with a small amount of water. Only add directly to your pool. Do not add water to this product. Add only into water. Do not remove floater or other dispensing device from water for more than five minutes if it contains tablets or tablet residue. Highly corrosive. Causes skin and eye damage. May be fatal if swallowed.

Read all precautionary statements and first aid statements on back panel before use.

Net Wt. 9.9 lbs.

PART NO. 00000
ITEM NO. 88463
88463-A-0209

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

WHY YOU SHOULD USE THIS PRODUCT:

Pool Breeze® Chlorinating Caplets is a multi-purpose product that is easy and convenient to use. This product controls algae, kills bacteria and destroys organic contaminants. These 10.5 ounce caplets are designed to be used in the skimmer basket and dissolve slowly providing a steady source of available chlorine for complete swimming enjoyment in your pool.

For best results follow a weekly program with our Pool Breeze Chlorinating Caplets System. Take a pool water sample to your authorized Pool Breeze dealer regularly for a detailed water analysis.

HOW TO USE: DO NOT allow this product to contact other water treatment products. 1. Use only in pools with a skimmer and skimmer basket. 2. Skimmer basket should be free of all other water treatment products before adding recommended amount of this product. 3. DO NOT remove plastic sleeve from the caplet. 4. Place caplet in the empty skimmer basket. 5. Remove empty plastic sleeve when caplets are dissolved. 6. Replace with a new caplet as needed. Do not mix with other products or dissolve before use.

WATER BALANCE: For optimum product performance, swimmer comfort and crystal clear water, always maintain pH from 7.2 to 7.6, total alkalinity from 60 to 120 parts per million (ppm) and calcium hardness above 200 ppm. Test frequently using a reliable test kit that measures all of the above ranges. Use Pool Breeze Pool Care Products to make adjustments. Follow label directions for each product.

DO NOT enter pool until the free available chlorine residual is 1-4 ppm for each of the below noted water treatment applications.

OPENING YOUR POOL: For best results, see the "WATER BALANCE" section above before treatment. Adjust and maintain pH in the 7.2 to 7.6 range. Follow "SHOCK TREATMENT" directions on this package. Test free available chlorine residual with a pool test kit. Repeat treatment as needed.

ROUTINE CHLORINATION: For best results, see "WATER BALANCE" section above before treatment. Throughout the pool season, adjust pH to 7.2-7.6.

FOR UNSTABILIZED POOLS: Begin by using 3 caplets of this product per 10,000 gallons of pool water.

FOR POOLS STABILIZED USING POOL BREEZE STABILIZER: Begin by using 1 caplet of this product per 10,000 gallons of pool water.

FOR UNSTABILIZED AND STABILIZED POOLS: After one day, use a suitable test kit to check free available chlorine residual. Increase or decrease the number of caplets to maintain a free available chlorine residual of 1-4 ppm. Follow "HOW TO USE" directions on this label.

SHOCK TREATMENT/ SUPERCHLORINATION:

For best results, see "WATER BALANCE" section above before treatment. Adjust pH to 7.2 - 7.6 with Pool Breeze pH adjusters. Follow label directions. Shock treat using Pool Breeze Power Shock. Follow label directions on that product. DO NOT reenter pool until the free available chlorine residual is 1 to 4 ppm. Shock treat your pool when opening, then weekly to prevent pool problems.

In the summer months when the pool water temperature is 80° F or above, or if the chlorine residual falls rapidly after regular chlorination, super chlorination is recommended. Use a chlorine shock product and follow the directions on that product for superchlorination.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Irritating to nose and throat.

• Open in a well ventilated area. Avoid breathing dust and fumes. • DO NOT get in eyes, on skin, or on clothing. DO NOT handle with bare hands. Wear goggles and use rubber gloves. For additional protection of skin, wear long sleeves and long pants. • Remove and wash contaminated clothing before reuse. • Only use utensils that are thoroughly clean and dry.

PHYSICAL AND CHEMICAL HAZARDS:

If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. DO NOT add water to this product. Add only into water. • DO NOT allow to become wet or damp before use.

Can react with other materials, including other water treatment products, to cause intense fire, explosion, and the release of toxic gases. • Keep all foreign matter, including other water treatment products, away from this product. • DO NOT use this product in a floater or feeder that has been used with any other product. • DO NOT allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in a skimmer.

Exposure to heat can cause this product to rapidly decompose, leading to intense fire, explosion, and the release of toxic gases. • Store in a cool, dry, well ventilated area.

Strong oxidizing agent. This product can increase fire intensity. Keep away from heat and from flame and burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. DO NOT reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal.

Offer for recycling if available. DO NOT contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING".

EMERGENCY HANDLING: In case of contamination or decomposition – DO NOT reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

IMPORTANT: DO NOT USE THIS PRODUCT IN ANY FEEDER, FLOATER, SKIMMER, OR OTHER CHLORINATING DEVICE IN WHICH ANY OTHER CHLORINATING COMPOUND HAS BEEN USED.

DO NOT use this product with any other chlorinating compound. **DO NOT** place in skimmer baskets that contain undissolved material from previously used tablets or sticks. **DO NOT** use this product in any chlorinating device which has previously contained other pool chemicals.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. **DO NOT** induce vomiting unless told to do so by a poison control center or doctor. **DO NOT** give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. **IN CASE OF EMERGENCY CALL: 1-800-654-6911.** For more information, visit our website at www.poolbreeze.com

Step 1.	Sanitize
Step 2.	Shock
Step 3.	Add Algacide
