**DANGER:** SEE BACK PANEL FOR ADDITIONAL PRECAUTIONARY AND FIRST AID STATEMENTS

Net Contents: 1 Gallon (3.785 l)

## ALGAECIDE

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.**

**WHY YOU SHOULD USE THIS PRODUCT:** This product, when used regularly, will kill and control the growth of green, blue-green, and other algae for complete pool enjoyment. For best results, use with other POOLIFE® pool care products. For crystal clear pool water, follow our 4 step pool care program: **Step 1:** Test and adjust pool water balance, **Step 2:** Chlorinate and clarify, **Step 3:** Shock treat your pool at least once a week, and **Step 4:** Add algaecide regularly.

This product may be used in the same pool treatment program as most commonly used swimming pool chemicals, but it should not be mixed with any foreign material, such as soap or other water treating chemicals. This product works best when added by itself directly to pool water with the pump running. Wait 15 minutes before entry of swimmers. Pools with heavy growth of algae should be cleaned prior to using this product.

**Take a pool water sample to your authorized POOLIFE dealer regularly for a detailed water analysis.**

**INITIAL DOSE:** Add 1 gallon of this product to 50,000 gallons of water when filling pool at beginning of season.

**VISIBLE ALGAE:** If pool has slight visible algae growth, treat with "Initial Dose" above. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment as necessary. When pool is free of visible algae, use the "Maintenance Dose".

**MAINTENANCE DOSE:** Add 1 quart of this product to 50,000 gallons of pool water at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently. If make-up water is added at the rate of more than 10% of pool capacity per week, add 1 quart of this product for each 10,000 gallons of fresh make-up water added per week.

**WINTERIZING:** When swimming season is over, adjust the pH to be between 7.2 and 7.6. Then add 1 gallon of this product to 50,000 gallons of pool water. This dose helps provide a measure of control of algae growth during the winter months and helps the servicing of the pool before it is returned to use the following season. Continue to keep the pump running for several hours after addition of algaecide.

**PRECAUTIONARY STATEMENTS**

**HAZARD TO HUMANS AND DOMESTIC ANIMALS -**

**DANGER:** Corrosive. Causes irreversible eye damage and skin burns. **DO NOT** get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling. Harmful if swallowed. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

**STORAGE AND DISPOSAL:** Keep this product in its tightly closed container when not in use. Nonrefillable container. **DO NOT** reuse or refill this container. Rinse empty container thoroughly with water prior to disposal. Offer for recycling if available. **DO NOT** contaminate food or feed by storage or disposal or cleaning of equipment.

Store in secure areas inaccessible to children and persons unfamiliar with the use of this product.

**FIRST AID: IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass

of water if able to swallow. **DO NOT** induce vomiting unless told to do so by the poison control center or doctor. **DO NOT** give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

**IN CASE OF EMERGENCY CALL: 1-800-654-6911.**
