DANGER/PELIGRO

Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Only add this product directly to your swimming pool or skimmer.

Read all Precautionary and First Aid Statements on back panel before use.

LICENSED

PERIOD 2015-2017 LIC. NO.

9338.503

INSTRUCTIONS:

It is a violation of federal law to use this product in a manner inconsistent with its labeling. READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

WHY YOU SHOULD USE THIS PRODUCT: This is an effective, multi-purpose product that sanitizes, clarifies, helps prevent algae and shock treats your pool. It is convenient, easy to use, and won't over-stabilize your pool.

For crystal clear pool water, follow our **hth® 4 step pool care program:** Step 1: Test and adjust pool water balance, Step 2: Sanitize, Step 3: Shock treat your pool at least once a week, and Step 4: Add algacide regularly.

WATER BALANCE:

Download the FREE Test to Swim™ app from your smartphone for expert water analysis, product recommendations, and dosage instructions.

Adjust and maintain pool water to recommended ranges:

Acceptable Range for Balance	
Total Alkalinity	60-100 ppm
pH	7.2-7.6
Calcium Hardness	Above 200 ppm
Available Chlorine	1-4 ppm

Note: Follow label directions for each product and allow each product to dissolve and disperse before adding additional products to the pool. Always check and adjust total alkalinity before adjusting pH levels. Use a test kit or test strips that measures all these ranges.

HOW TO USE: DO NOT use in floater or feeder.

METHOD FOR DOSING DIRECTLY INTO POOL:

Add the recommended dosage of this product during evening hours while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If any granules settle to the bottom of the pool, use brush to disperse until completely dissolved. Undissolved granules may cause bleaching or other damage to pool surfaces.

METHOD FOR SKIMMER ADDITION:

Use this method to avoid bleaching vinyl liner or paint. Make sure that filter pump is on and properly recirculating through skimmer. Empty skimmer of all chemicals and/or debris. Contamination may cause an explosion or the release of toxic gases. DO NOT use this method when an automatic chemical dispensing device (e.g. feeder) is present. Pour this product slowly into skimmer, making sure that the material is drawn into the system at the same rate. DO NOT allow this material to accumulate as toxic gases may be generated. Test free available chlorine residual with an hth pool test kit or test strips. Do not enter pool until the free available chlorine residual is 1 - 4 ppm. **Re-entry into treated swimming pools is prohibited above levels of 4 ppm chlorine for risk of bodily injury.**

OPENING YOUR POOL:

Balance pool water per levels in WATER BALANCE section. Add a shock dosage of this product. Repeat dosage, as needed, until the free available chlorine residual is 1-4 ppm. Follow label directions for each of these products.

SHOCK TREATMENT / SUPERCHLORINATION:

As a preventative treatment, shock treat your pool once per week with **hth® shock treatment**. Additional shock treatments may be necessary to remedy problems which may occur when bathing loads are high, water appears hazy or dull, unpleasant odors or eye irritation occur, after heavy wind and rainstorms, or if algae does develop with resulting green color and slimy feeling.

Use the following dosage recommendations based upon pool size.

Pool size, gallons	Dosage, ounces
500	0.7 oz
1,000	1.3 oz
2,500	3.3 oz
5,000	6.7 oz
7,500	10 oz
10,000	13.3 oz
15,000	20 oz
20,000	26.7 oz
30,000	40 oz

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, absorbed through skin, or inhaled. • Open in a well-ventilated area. Avoid breathing dust and fumes. • Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear protective eyewear and use rubber gloves. For additional protection of skin, wear long sleeves and long pants. • Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. • Remove and wash contaminated clothing before reuse.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

PHYSICAL AND CHEMICAL HAZARDS:

If product is exposed to small amounts of water, it can react violently to produce heat and toxic gas and spatter. Do not pre-mix or add water to this product. Only add this product directly to your swimming pool or skimmer. • Do not allow to become wet or damp before use. Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases. • Keep all foreign matter, including other water treatment products, away from this product. • Use only clean, dry utensils to dispense this product. • Do not use this product in a floater or feeder. • Do not allow this product to contact other water treatment products. Before placing this product in a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products. **Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.** • Store in a cool, dry, well-ventilated area. **Strong oxidizing agent. This product can increase fire intensity.** • Keep away from heat and from flame and burning material, including lighted cigarettes.

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL:

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. **FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING.**

EMERGENCY HANDLING:

In case of contamination or decomposition: Do not reseal container. Place the container in an open and well-ventilated area by itself (if possible). Flood with large amounts of water until the material is dissolved. Dispose of container and any remaining contaminated material in an approved landfill area.
