

filter or feeder. •Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in a skimmer. **Strong oxidizing agent. This product can increase fire intensity.** •Keep away from heat and from flame and burning material, including lighted cigarettes.

ENVIRONMENTAL HAZARDS:
This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL:

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. **FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING."**

EMERGENCY HANDLING: In case of contamination or decomposition – Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

DANGER/PELIGRO

Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not add water to this product. Only add product into water.

Read all Precautionary Statements on back panel before use.

Contents 1 Stick • Net Wt. 226.8 g

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. **IN CASE OF EMERGENCY CALL: 1-800-654-6911**

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

WHY YOU SHOULD USE THIS PRODUCT:

When used as directed, this product is an effective swimming pool water sanitizer. These convenient and easy to use **hth® chlorinating skimmer sticks** are formulated to protect against chlorine loss in direct sunlight, and can be used in the skimmer. They are designed to dissolve slowly to provide a steady source of available chlorine (up to 2 weeks).

HOW TO USE:

Place this product in the skimmer. Use in skimmer which has previously contained only this product, trichloro-s-triazinetrione. Run the pump a minimum of eight hours daily. **DO NOT** use in feeders or floaters. **DO NOT** throw sticks directly into pool or pool surface damage could occur. **DO NOT** permit sticks to contact plastic pool linings or metal objects. **DO NOT** add other chemicals to the skimmer while this product is present.

If chlorine residual goes above 4 ppm, reduce skimmer flow rate or daily pump operation time. If chlorine residual goes below 1 ppm, increase skimmer flow rate or daily pump operation time and add enough **hth® granular shock** to maintain 1-4 ppm of chlorine.

Re-entry into treated swimming pools is prohibited above levels of 4 ppm chlorine due to risk of bodily injury.

WATER BALANCE:

Adjust and maintain pool water total alkalinity from 80 to 120 parts per million (ppm), pH from 7.2 to 7.6, and calcium hardness above 200 ppm. Always check and adjust total alkalinity before adjusting pH levels. Test frequently using an **hth® test kit** or **hth® test strips** that measure all of the above ranges. Follow label directions and adjust with appropriate product.

OPENING YOUR POOL:

Balance pool water, shock treat, and stabilize your pool using **hth® stabilizer**, following label directions.

ROUTINE CHLORINATION:

Add one stick per 5,000 gallons of pool water every 1 to 2 weeks, or as often as needed to maintain a chlorine residual of 1-4 ppm. This dosage may vary depending upon bather load, water temperature and other conditions.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed. Irritating to nose and throat. •Open in a well-ventilated area. Avoid breathing dust and fumes. •Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants.

•Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. •Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS:

DANGER. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not add water to this product. Only add product into water. •Do not allow to become wet or damp before use. •Do not remove skimmer basket from water for more than five minutes if it contains a stick or stick residue. **Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.** •Keep all foreign matter, including other water treatment products, away from this product. •Do not use this product in a

OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

Ms. Leigh Ann Richardson, Regulatory Supervisor
Arch Chemicals, Inc.
5660 New Northside Drive, Suite 1100
Atlanta, GA 30328

Subject: Notification Of Alternate Brand Names
Product Name: **AW13**
EPA Registration Number: **1258-1337**
Application Date: December 11, 2012
Application Receipt: December 12, 2012

Dear Ms. Richardson:

This acknowledges receipt of the Notification application above, submitted pursuant to the provision of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) 3 (c) 9, as amended.

Proposed Notification:

Arch Chemicals, Inc. is submitting the following twenty-four (24) Alternate Brand Names to **EPA Reg. No. 1258-1337:**

1. HTH Chlorinating Skimmer Sticks;
 2. HTH Skimmer Sticks;
 3. HTH Pool Protect Skimmer Sticks;
 4. HTH Pool Protect Skimmer Sticks;
 5. HTH Pool Protect Chlorinating Skimmer Sticks;
 6. HTH Pool Shield Skimmer Sticks;
 7. HTH Super Skimmer Sticks;
 8. HTH Super Extend-a-Stick;
 9. HTH Guardian Pool Sticks;
 10. HTH Protector Skimmer Sticks;
 11. HTH Protect Chlorinating Skimmer Sticks;
 12. HTH Extend-a-Stick;
 13. HTH Genius Stick;
 14. HTH Shield Skimmer Sticks;
 15. HTH Brilliant Skimmer Sticks;
-
1. HTH Slow Erosion Skimmer Sticks;
 2. HTH Extend Skimmer Sticks;
 3. HTH Extend & Protect Skimmer Sticks;
 4. HTH Eternity Skimmer Sticks;
 5. HTH Slow Chlor Skimmer Sticks;
 6. HTH Extended Life Skimmer Sticks;
 7. HTH Sustain Chlorinating Skimmer Sticks;
 8. HTH Advanced Skimmer Sticks;
 9. HTH Outlast Skimmer Sticks.

General Comments:

Based on a review of the material submitted, the following comment applies.

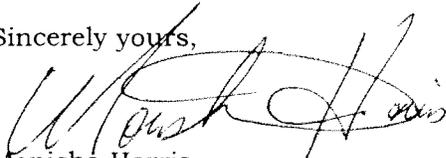

The first Fifteen (15) Alternate Brand Names are **Acceptable**.

The last Nine (9) Alternate Brand Names are **un-Acceptable**, because the Brand Names may represent Misbranding as either Heightened Efficacy or a Greater or more Enhanced Rate-of- Release is implied by these Alternate Brand Names.

In order to have the last nine Brand Name Products accepted, you must provide data that demonstrates the chemical formulations for these Products behave in a demonstrably different way from the chemical formulations of the first fifteen Products.

If you have questions or comments with regard to this agency letter, please contact Killian Swift via email at Swift.Killian@epa.gov or by telephone at 703-308-6346. When you are submitting information or data in response to this agency letter, please send a copy of this agency letter with your response in order to facilitate processing.

Sincerely yours,
