Quality Care™ FOAMING DISINFECTANT Bathroom Cleaner

This product is designed for tough cleaning, disinfecting and sanitizing of non-porous, hard surfaces in the bathroom. Cleans, shines, deodorizes, disinfects and sanitizes non-porous, hard surfaces such as bathtubs, sinks, shower stalls and toilet seats. May be used on non-porous, hard surfaces such as fiberglass, chrome, plastic, baked enamel and glazed porcelain. Non-abrasive. When used as directed, this product demonstrates effective disinfection against *Pseudomonas aeruginosa*, *Salmonella enterica* and *Staphylococcus aureus*. Efficacy tests have demonstrated that this product is an effective one-step cleaner/disinfectant in the presence of organic soil (5% blood serum). Kills *Trichophyton mentagrophytes*, the cause of Athlete's foot fungus, on hard, non-porous surfaces found in bathrooms. No scrubbing, No rinsing, Non-abrasive. Prevents and controls mold and mildew on hard, non-porous surfaces.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Disinfection, Deodorization and Cleaning:

1. Shake Can Well Before and During Use.
2. Holding can 6 to 8 inches from surface, spray area until it is covered with a white foam. To disinfect, allow foam to penetrate and remain wet for 10 minutes. To only clean surface wipe foam away after 1 to 2 minutes.
3. Wipe with wet cloth or sponge.
4. For heavily soiled areas, remove heavy soil or gross filth before treatment.

Note: This product features an adjustable spray-anyway tip. May be sprayed upside down or from most angles. For best results, check that arrow on tip is turned to mark on rim before spraying.

Mold and Mildewstat – To control mold and mildew on pre-cleaned, hard, non-porous surfaces, spray surface until it is completely covered in foam. Let air dry. Repeat application at weekly intervals or when mildew growth reappears.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.
