READ ENTIRE LABEL BEFORE USE.

USE ONLY ON CATS OR KITTENS OVER 2.5 LBS AND OVER 12 WEEKS OF AGE.

**INTRODUCTION:** ZODIAC® Spot On® Flea Control for Cats & Kittens contains a topically applied long-lasting insect growth regulator specifically formulated for cats and kittens, which prevents flea eggs from maturing into adults. A single application of this product will last for up to 1 month. This product provides relief from flea infestations for 1 month by controlling and preventing flea eggs on your cat/kitten. Normal insecticides will not kill the flea eggs, but this product kills flea eggs, thereby breaking the flea life cycle.

After application, through its natural movement, your cat's skin and hair oils carry this product over the cat's/kitten's body for protection against flea eggs. Once fleas are evident on your cat/kitten, there is already an infestation of their preadult stages in your home. To kill existing adult flea populations, you may need to treat the home, cat's bed, and yard with traditional flea products approved for use on cats/kittens, around the home (such as home sprays, foggers), or in your yard. As with all flea products, this product is most effective when used as part of a total program aimed at reducing fleas in the cat's environment. Be sure to treat the cat's/kitten's bedding and surroundings with ZODIAC® flea and tick products registered for these uses.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product contains 4 monthly doses, each 0.034 fl oz (1cc) (one monthly dose).

USE ONLY ON CATS OR KITTENS OVER 12 WEEKS OF AGE. Do not apply to cats weighing less than 2.5 lbs. Do not allow your cat to ingest this product.

1. Bend at perforation and tear off 1st month's applicator.
2. Hold applicator and bend numbered area of plastic at perforation, tear off and discard.
3. Hold applicator upright away from face and body and use scissors to cut secure seal applicator tip.
4. Prior to application of the product, gently lift the cat's haircoat on the back of the neck at the base of the skull, position the tip of the applicator on the cat's exposed skin, and squeeze out the entire contents of the applicator onto the cat's skin. Because of the bitter taste of the product, some cats may salivate if they are able to lick the product when grooming right after application. This effect is temporary and is not harmful.
5. Repeat application once monthly. Do not use more than one applicator per cat and do not apply more than once every month.

**STORAGE AND DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal. **Storage:** Store in a cool, dry place. **Disposal: If Empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If Partly Filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS – CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

**HAZARDS TO DOMESTIC ANIMALS – CAUTION:** Do not use on kittens less than 12 weeks old. Consult a veterinarian before using this product on debilitated, aged, medicated, pregnant or nursing animals. Sensitivity may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your cat/kitten with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Due to the bitter taste of the product, oral exposure could result in salivation. Be careful not to get any product in the cat's mouth during application. For multiple cat households, prevent the cats from grooming each other until the product has dried. If an oral exposure occurs, offer the cat a taste treat, such as tuna, milk, or any other food items your cat enjoys. If the problem continues or other clinical signs are noted, please call 1-800-950-4783.

**FIRST AID**

<b>If in eyes</b>	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
-------------------	---

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-950-4783 for emergency medical treatment information.

Be sure to read full directions and precautions on the label. Satisfaction guaranteed or your money back. In case of emergency or for product use information, call 1-800-950-4783.

**SIDE EFFECTS:** Monitor your cat after application. Side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects occur, consult your veterinarian or Zodiac at 1-800-950-4783.
