READ ENTIRE LABEL BEFORE USE.

USE ONLY ON CATS OR KITTENS OVER 12 WEEKS OF AGE.

**INTRODUCTION:** ZODIAC<sup>®</sup> Spot On<sup>®</sup> Flea Control for Cats & Kittens contains a topically applied long-lasting insect growth regulator specifically formulated for cats and kittens, which prevents flea eggs from maturing into adults. A single application of this product will last for up to 1 month. This product provides relief from flea infestations for 1 month by controlling and preventing flea eggs on your cat/kitten. Normal insecticides will not kill the flea eggs, but this product kills flea eggs, thereby breaking the flea life cycle.

After application, through its natural movement, your cat's skin and hair oils carry this product over the pet's body for protection against flea eggs. Once fleas are evident on your pet, there is already an infestation of their preadult stages in your home. To kill existing adult flea populations, you may need to treat the home, pet's bed, and yard with traditional flea products approved for use on pets, around the home (such as home sprays, foggers), or in your yard. As with all flea products, this product is most effective when used as part of a total program aimed at reducing fleas in the cat's environment. Be sure to treat the animal's bedding and surroundings with ZODIAC<sup>®</sup> flea and tick products registered for these uses.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product contains 4 monthly doses, each 0.034 fl oz (1cc) (one monthly dose).

USE ONLY ON CATS OR KITTENS OVER 12 WEEKS OF AGE.

1. Bend at perforation and tear off 1st month's applicator.
2. Hold applicator and bend numbered area of plastic at perforation, tear off and discard.
3. Hold applicator upright away from face and body and use scissors to cut secure seal applicator tip.
4. Prior to application of the product, gently lift the cat's haircoat on the back of the neck at the base of the skull, position the tip of the applicator on the cat's exposed skin, and squeeze out the entire contents of the applicator onto the cat's skin. Because of the bitter taste of the product, some cats may salivate if they are able to lick the product when grooming right after application. This effect is temporary and is not harmful.
5. Repeat application once monthly.

**STORAGE & DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal. **Storage:** Store in a cool, dry place. **Disposal:** If Empty: Do not reuse this container. Place in trash or offer for recycling if available. **If Partly Filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

#### PRECAUTIONARY STATEMENTS

**HAZARDS TO HUMANS - CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

**HAZARDS TO DOMESTIC ANIMALS - CAUTION:** Do not use on kittens less than 12 weeks old. Consult a veterinarian before using this product on debilitated, aged, medicated, pregnant or nursing animals. Sensitivity may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.
