### KIRKLAND SIGNATURE FLEA & TICK CONTROL FOR CATS

READ ENTIRE LABEL AND INSERT BEFORE USE. USE ONLY ON CATS OR KITTENS 12 WEEKS OF AGE AND OLDER AND 5 LBS. AND OVER. DO NOT APPLY TO CATS WEIGHING LESS THAN 5 LBS. DO NOT USE ON OTHER ANIMALS!

DO NOT ALLOW CHILDREN TO APPLY PRODUCT.

Kirkland Signature Flea & Tick Control for Cats is a topically applied long-lasting product specifically formulated for cats to prevent and control flea infestations. This product contains Etofenprox, which kills biting adult fleas, deer ticks, and mosquitoes your cat may acquire from its surroundings. This product provides relief from flea infestations for up to 1 month by killing adult fleas on your cat or kitten and flea eggs in your home.

**DIRECTIONS FOR USE:** It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**USE RESTRICTIONS:** This product works by application directly to the cat's skin, not to the hair. When applying, manually push aside cat's hair to allow direct application to the skin. Do not use on kittens less than 12 weeks old. Do not use more than one vial per cat and do not apply more than once every month.

Do not get this product in cat's eyes or mouth. Do not allow your cat to ingest this product. Use only on cats 12 weeks of age and older.

#### FOR CATS

1. Bend at perforation and tear off 1st month's applicator.
2. Hold applicator upright and bend area of plastic at perforation, tear off and discard. Hold applicator upright and snap tip back, away from face and body.
3. Prior to application of the product, gently lift the cat's or kitten's hair coat on the back of the neck at the base of the skull, position the tip of the applicator on the cat's exposed skin and squeeze out the entire contents of the applicator onto the cat's skin.
4. Do not spread this product by hand over the cat. Do not bathe the cat within the first 24 hours after product has been applied. Households with more than one cat should prevent cats from grooming each other until solution has dried.
5. Do not treat more than once per month.
6. Discard empty applicator as described in STORAGE and DISPOSAL.

Monthly treatments are required for optimal control and prevention of fleas.

The successive feeding activity of fleas on cats may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of cats with this product rapidly kills fleas and may reduce the incidence of this condition.

**STORAGE and DISPOSAL:** Pesticide Storage: Store applicators in a cool, dry (preferably locked) area away from children and animals. Container Disposal: If empty: Do not reuse empty applicator. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

#### PRECAUTIONARY STATEMENTS

##### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**HAZARDS TO HUMANS:** Wash your hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Repeated exposure to Etofenprox can cause skin irritation.

**HAZARDS TO ANIMALS:** For External Use on Cats Only. Do not use on kittens less than 12 weeks old or on kittens weighing less than 5 lbs. Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated animals. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your cat with mild soap and rinse with large amounts of water. If signs continue, please call 1-888-987-4110 or consult a veterinarian immediately. Due to the bitter taste of the product, oral exposure could result in salivation. Be careful not to get any product in the cat's mouth during application. For multiple cat households, prevent the cats from grooming each other until the product has dried. If the salivation continues or other clinical signs are noted, please call 1-888-987-4110.

#### FIRST AID

- If in eyes
- Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
  - Remove contact lenses, if present, after first 5 minutes, then continue rinsing.
  - Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-888-987-4110, twenty-four (24) hours per day, seven (7) days per week.

**WARRANTY AND CONDITIONS OF SALE:** Seller warrants that this product conforms to the chemical specifications expressed on the label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller's liability for default, breach, or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.
