Place in trash or offer for recycling, if
available. If partially filled: Call your local
solid waste agency for disposal instructions.
Never place unused product down any
incur or outdoor drain.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC
ANIMALS

CAUTION
DO NOT USE ON DOGS/PUPPIES LESS
THAN 10 WEEKS OLD.

For external use only. Causes moderate eye
irritation. Avoid contact with eyes or
clothing. Wash thoroughly with soap and
water after handling and before eating,
drinking, chewing gum, using tobacco, or
using the toilet. Repeated exposure to
etofenprox can cause skin irritation. Consult
a veterinarian before using this product on
debilitated, aged, pregnant, nursing, or
animals on medication. Sensitivities may
occur after using ANY pesticide product for
pets. If signs of sensitivity occur, bathe your
dog/puppy with mild soap and rinse with
large amounts of water. If signs continue,
consult a veterinarian immediately. Some
dogs/puppies may experience hair loss or
temporary skin irritation at the application
site. If signs persist or become more severe,
contact veterinarian immediately and report
incident to company at 1-800-766-7661.

FIRST AID:

If in eyes: • Hold eye open and rinse slowly
and gently with water
for 15-20 minutes.
• Remove contact lenses, if
present, after first 5 minutes,
then continue rinsing.
• Call a poison control center or
doctor for treatment advice.

Have the product container or label with
you when calling a poison control center or
doctor or going for treatment. You may also
contact 1-800-766-7661 for emergency
medical treatment information.

WARRANTY AND CONDITIONS OF SALE:

Seller warrants that this product conforms
to the chemical specifications expressed on
the label. To the extent consistent with
applicable law, Seller makes no other
warranties, and disclaims all other
warranties, express or implied, including but
not limited to warranties of merchantability
and fitness for the intended purpose. To the
extent consistent with applicable law,
Seller's liability for default, breach, or failure
under this label shall be limited to the
amount of the purchase price. To the extent
consistent with applicable law, Seller shall
have no liability for consequential damages.

VET-KEM[®]
Ovitrol[®] X-Tend[™]
Flea & Tick Spot On[®] for Dogs

IMPORTANT! DO NOT USE ON DOGS/PUPPIES LESS THAN 10 WEEKS OLD.

READ ENTIRE LABEL BEFORE EACH USE.
USE ONLY ON DOGS AND PUPPIES.
DO NOT USE ON OTHER ANIMALS!

The X-Tender[™] Applicator is specially designed to make applying
flea and tick control easier and more precise than ever before.
You simply insert the appropriate tube for your dog/puppy into the
applicator, close it and squeeze to apply. The applicator's
ergonomic, contoured shape makes it easy to grip and the built-in
tip helps to spread the dog's/puppy's hair to allow the liquid to
more readily reach the skin. The tube is sealed inside, so you can
be confident that the liquid goes onto your dog/puppy – and not
your hand. Plus, if the applicator is laid down on a table, counter or
other flat surface, it won't run out or drip. Vet-Kem[®] Ovitrol[®]
X-Tend[™] Flea & Tick Spot On[®] for Dogs provides flea and tick
protection for dogs/puppies for up to 30 days. This product is
water resistant and remains efficacious following exposure
to rainfall or swimming.

This product is most effective when used as part of a total flea
and tick management program. Use other Vet-Kem[®] products
registered for residential area control of these pests in
conjunction with this treatment. Monthly treatments are
required for optimal control and prevention of fleas.

The successive feeding activity of fleas on dogs/puppies may
elicit a hypersensitivity skin disorder known as flea allergy
dermatitis (FAD). Treatment of dogs/puppies with this product
rapidly kills fleas and may reduce the incidence of this condition.

DIRECTIONS FOR USE: It is a violation of Federal Law to use
this product in a manner inconsistent with its labeling. Read
and follow all directions and precautions on this product label.

USE RESTRICTIONS: Apply this product once every 30 days
unless a retreatment is necessary. Do not make the retreatment
sooner than 8 days after the initial treatment. Do not retreat
more than once per month.

Vet-Kem[®] Ovitrol[®] X-Tend[™] Flea & Tick Spot On[®] for Dogs works
by application directly to the dog's/puppy's skin, not to the hair.
When applying, use applicator device tip to push aside
dog's/puppy's hair to allow direct application to the skin. Do not
get this product in dog's/puppy's eyes or mouth.

FOR TOY DOGS/PUPPIES

To apply this product, use one disposable liquid tube for each
application with the applicator device.

1. OPEN: Use finger scoop
to lift open red door.

2. LOAD: To load, place tube
WHITE SIDE UP under the
red tabs.

3. CLOSE: Close the red door
and the tube will snap open.

4. APPLY: The dog/puppy
should be standing for easy application. To apply, use tip to
part hair and get next to dog's/puppy's skin. Press circle on
red door once at each of two evenly placed spots between the
shoulders and the base of the tail.

Do not apply an excessive
amount of the solution at
any one spot that could
cause some of the solution to
run off the side of the
dog/puppy. Do not spread this product by hand over the
dog/puppy. Although the dog's/puppy's skin and hair oils will
distribute the application over the entire dog/puppy, brushing
the dog/puppy 12-24 hours after treatment will help to
distribute the material over the skin.

5. DISPOSE: To dispose of empty tube, open
red door and drop empty tube into trash or
offer for recycling, if available. Close
applicator device door and store in original package.

6. USE RESTRICTIONS: Do not reapply product for 30 days unless
retreatment is required, but not sooner than 8 days after initial
treatment. Do not retreat more than once per month.

NOTE: Each package contains sufficient tubes for
3 applications.

**In case of emergency or for product information, call
1-800-766-7661 or contact your veterinarian if your dog is
experiencing an adverse event.**

DO NOT USE ON CATS
Keep cats away from treated
dogs/puppies for 24 hours. If applied to a
cat or ingested by a cat, contact your
veterinarian immediately.

**ERGONOMICALLY
CONTOURED**
for easy handling
