3 Month Supply

NET CONTENTS: 0.102 fl oz total
(Three 0.034 fl oz/1.0 cc tubes)

STORAGE AND DISPOSAL:

Storage: Store in a cool, dry area away from children and animals. Do not store unused tubes separately from their packaging. **Liquid Tube Disposal:** If empty: Do not reuse empty tube. Place in trash or offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

HAZARDS TO HUMANS: Repeated exposure to etofenprox can cause skin irritation.

HAZARDS TO DOMESTIC ANIMALS:

For External Use on Cats Only. **Do not use on kittens weighing less than 2.5 pounds. Do not use on kittens less than 12 weeks old.** Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated animals. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

WARRANTY AND CONDITIONS OF SALE:

Seller warrants that this product conforms to the chemical specifications expressed on the label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller's liability for default, breach, or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.

SMALL

Ovitrol[®] X-Tend[™]
Flea & Tick Spot On[®] for Cats

READ ENTIRE LABEL BEFORE USE.
USE ONLY ON CATS OR KITTENS 12 WEEKS OF AGE AND
OLDER AND OVER 2.5 LBS. AND UNDER 5 LBS.

The X-Tender[™] Applicator is specially designed to make applying flea and tick control easier, more precise - and neater - than ever before. You simply insert the appropriate tube for your cat/kitten into the applicator, close it and squeeze to apply. The applicator's ergonomic, contoured shape makes it easy to grip and a built-in tip helps to spread the cat's/kitten's hair to allow the liquid to more readily reach the skin. The tube is sealed inside, so you can be confident that the liquid goes onto your cat/kitten - and not your hand.

Vet-Kem[®] Ovitrol[®] X-Tend[™] Flea & Tick Spot On[®] for Cats provides relief from flea infestations for up to 30 days by killing adult fleas and flea eggs on your cat or kitten.

This product is most effective when used as part of a total flea and tick management program. Use other Vet-Kem[®] products registered for residential area control of these pests in conjunction with this treatment. Monthly treatments are required for optimal control and prevention of fleas.

The successive feeding activity of fleas on cats may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD). Treatment of cats with this product rapidly kills fleas and may reduce the incidence of this condition.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read and follow all directions and precautions on this product label.

USE RESTRICTIONS: This product contains 3 monthly dosages, each 0.034 fl oz. Do not apply more than once every month. Do not use more than one tube per cat. Do not get this product in your cat's eyes or mouth. Do not allow your cat to ingest this product. Do not apply to cats weighing less than 2.5 lbs.

Vet-Kem[®] Ovitrol[®] X-Tend[™] Flea & Tick Spot On[®] for Cats works by application directly to the cat's/kitten's skin, not to the hair. When applying, use applicator device tip to push aside cat's/kitten's hair to allow direct application to the skin. Do not get this product in cat's/kitten's eyes or mouth.

Flea & Tick Spot On[®] for Cats

FOR CATS & KITTENS

(Over 2.5 lbs. and under 5 lbs.)

To apply this product, use one disposable liquid tube for each application with the applicator device. Do not use more than one tube per cat.

1. OPEN: Use finger scoop to lift open yellow door.

2. LOAD: To load, place tube WHITE SIDE UP under the yellow tab.

3. CLOSE: Close the yellow door and the tube will snap open.

4. APPLY: The cat/kitten should be standing for easy application. To apply, use tip to part hair and get next to cat's/kitten's skin at the base of the skull. Press square on yellow door and squeeze out the entire contents of the tube onto the cat's/kitten's skin.

Do not spread this product by hand over the cat/kitten. Do not bathe the cat/kitten within the first 24 hours after product has been applied. Households with more than one cat/kitten should prevent cats/kittens from grooming each other until solution has dried.

5. DISPOSE: To dispose of empty tube, open yellow door and drop empty tube into trash or offer for recycling, if available. Close applicator device door and store in original package.

6. RETREAT AFTER 30 DAYS: Do not reapply product for 30 days. Do not treat more than once per month.

NOTE: Each package contains sufficient tubes for 3 applications.

Side Effects: Monitor your cat after application. Side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects occur, consult your veterinarian or Vet-Kem at 1-800-766-7661.

In case of emergency or for product information, call 1-800-766-7661 or contact your veterinarian if your cat/kitten is experiencing an adverse event.
