

Absorbine® UltraShield® EX Insecticide and Repellent Carpet and Surface Spray for Dogs
READ ALL DIRECTIONS COMPLETELY BEFORE USE. USE ONLY ON DOGS. DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **SHAKE WELL BEFORE USE.** Ready to use. No mixing necessary. Hold container upright and spray as directed. **FOR RESIDENTIAL USE: INDOOR APPLICATION:** **PRECAUTIONS AND RESTRICTIONS:** Do not apply this product in a way that will contact children, either directly or through drift. Except when applying to dogs, do not allow adults or pets to enter until sprays have dried. Application is prohibited directly into sewers or drains or to any area like a gutter where drainage to sewers, water bodies or aquatic habitat can occur.

Do not allow the product to enter any drain during or after application. Not for broadcast use. Not for use in outdoor residential misting systems. Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use. Remove pets, birds and cover fish aquariums before use. Do not wet articles to the point of runoff or drip. Do not use treated article until spray has dried. Do not apply more than once a day. **DIRECTIONS:** To operate sprayer, turn tip to proper setting, spray surfaces or pinstream cracks and crevices and pump trigger to spray as directed. For best results, follow directions for specific use areas. Do not use this product in or on electrical equipment due to possibility of shock hazard. Avoid excessively wetting furniture and carpeting. Always test in an inconspicuous area prior to use, as liquid products may adversely affect some natural and synthetic fibers. **DO NOT CONTAMINATE FOOD AREAS. FLEA AND TICK CONTROL. FOR SURFACE AND CARPET**

SPRAY: Prior to application, thoroughly vacuum all carpeting and upholstered furniture, along baseboards, under furniture, and in closets. Put vacuum bag into a sack and dispose of in outside trash. Apply uniformly at the rate of 1 fluid ounce per 31 square feet to rugs, carpets, draperies, and all surfaces of upholstered furniture. Treat under and around furniture if pets frequently rest in these areas. Avoid excessively wetting upholstered furniture and draperies. A fine spray applied uniformly is all that is necessary to kill fleas. To kill ticks and other labeled insects, apply directly to pests. Do not allow children or pets to walk on treated surfaces until completely dry. Do not spray on pets or humans. **FOR USE IN VEHICLES:** If flea infested animals are transported in vehicles, use as directed above to control infestation. **FOR USE IN PET DOG AREA:** Treat dog bedding and other dog resting places as these are primary hiding areas for fleas and ticks. No need to remove pet bedding after treatment. To reduce infestation, spray around sleeping area, around baseboards, window and door frames, wall cracks, local areas of floors, and other resting places until the surface is slightly moist. Also spray the entire inside surface of doghouses and kennels. Do not allow pets to use treated areas until completely dry. For best results, to protect your pet against and to minimize reintroduction of adult fleas from outdoors, use EPA registered flea and tick products, such as Absorbine® UltraShield® EX Insecticide & Repellent Flea & Tick Control For Dogs, flea and tick collar, pet powder, pet spray, pet dip, pet shampoo, flea shampoo or flea and tick pet shampoo, in conjunction with this application and prior to re-entry. **DOGS:** Kills and repels fleas, ticks and lice. Consult a veterinarian before using this product on debilitated, medicated, aged, pregnant or nursing animals. Do not apply to puppies under the age of 12 weeks. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. • Cover animal's eyes with a hand. Do not spray directly on mouth, nose and eyes. Spray head, ears and chest until damp. With fingertips, rub into face, and around mouth, nose, and eyes. Then spray from the neck to the tail, finishing legs last. For best penetration of spray to skin and on heavily coated animals, direct spray against the natural lay of the hair, spraying the ruffled hair directly behind the hand. Do not apply more than 0.0 fl. oz. of product to dog. Make sure the spray thoroughly wets ticks. (When used on miniature and toy breeds of dogs, towel dry the animal after 1/2 hour if not completely dry). Avoid contact with genitalia.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage and disposal. Pesticide Storage: (Store product with spray nozzle closed.) Store in a cool, dry area, preferably one that can be locked. Always store pesticides in the original container. Store container upright. Store away from food and pet food. **Pesticide Disposal and Container Handling:** Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS. CAUTION. Harmful if absorbed through the skin. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear long sleeved shirt, long pants, shoes, socks and chemical resistant gloves made out of any water proof material. Remove and wash contaminated clothing before reuse. Avoid contamination of food or feedstuffs. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. **ENVIRONMENTAL HAZARDS:** This pesticide is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. This pesticide is toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow drift when bees are actively visiting treatment area. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash-waters or rinsate. **FIRST AID: IF ON SKIN OR CLOTHING:** - Take off contaminated clothing. - Rinse skin immediately with plenty of water for 15-20 minutes. - Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Immediately call a poison control center or doctor. - Do not induce vomiting unless told to do so by poison control center or doctor. - Do not give any liquid to the person. - Do not give anything by mouth to an unconscious person. • Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-800-740-6712.
