PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

CAUTION: Harmful if swallowed or absorbed through the skin. Avoid breathing vapor or spray mist. Avoid contact with the skin, eyes, or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID: IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **HOT LINE NUMBER** - Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information, call 1-800-222-1222, 24 hours, 7 days a week. **NOTE TO PHYSICIAN:** Contains petroleum distillates - vomiting may cause aspiration pneumonia.

ENVIRONMENTAL HAZARDS: This product is toxic to aquatic organisms, including fish and invertebrates. Drift and run-off may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through run-off. This water has a potential for run-off for several weeks after application. Poorly draining soils and soils with shallow water tables are more prone to produce run-off that contains this product. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area. Do not apply to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash-waters or rinsate. See Directions for Use for additional precautions and restrictions.

PHYSICAL OR CHEMICAL HAZARDS: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not allow spray to contact plastic, painted or varnished surfaces.

Manufactured by

AMREP, INC.

990 Industrial Park Dr., Marietta, GA 30062

Made in USA

Part #34-2050CVA

**METERED INSECTICIDE
FLY SPRAY**

Kills Gnats and Small Flying Moths

Contains Pyrethrins, A Botanical Insecticide

ACTIVE INGREDIENTS:

Pyrethrins:	0.975%
*Piperonyl Butoxide, technical	1.950%
N-octyl bicycloheptene dicarboximide	3.050%
INERT INGREDIENTS:	94.025%
TOTAL:	100.000%

Contains petroleum distillates

*Equivalent to 1.560% (butylcarbityl)(6-propylpiperonyl) ether and 0.390% related compounds

KEEP OUT OF REACH OF CHILDREN

CAUTION:

See back panel for additional precautionary statements.

NET WT. 6.4 OZ. (181 GRAMS)

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOR USE IN Food handling and food preparation areas of restaurants and food processing plants, stores, farms, dairies, barns, kennels, factories, hotels, motels, offices, ships, planes (cargo area only), supermarkets food warehouses, bottling plants, homes, milk and egg handling areas of dairies and chicken houses.

This product contains a highly effective insecticide designed especially **FOR USE IN** automatic dispensers. The dispenser activates the metered valve every 15 minutes. Usually the effectiveness of this product will be noticeable within one hour after the Dispenser is activated. If less than 24 hour control is required, the Dispenser should be set to start one hour before control is desired and run one hour after control is no longer needed. Keep in mind that factors such as airflow rate, size of space treated, humidity and room temperature affect insect activity and control. Therefore, one unit per 6,000 cubic feet of unobstructed space should be considered as an average with adjustments made depending on specific conditions at usage site. As with any method of insect kill, best results are achieved when sanitation and other positive insect prevention practices are followed.

Do not use in aircraft cabins. It is suggested that the container be changed once a month.

OUTDOORS: This product can be used to treat dog kennels, dog runs, side yards, patios, decks & residential landscapes. Set the dispenser to treat at dawn & dusk & use when humans are not in the area. When heavy pest infestations are present the dispenser may be set to treat at 15 minute intervals. Place the dispensers out of the reach of pets & children & use the prevailing wind to assist in carrying the spray throughout the area to be treated. This product can be used to kill gnats & small flying moths. Each dispenser will treat up to 650 square feet. Use enough dispensers to treat the entire area you want protected.

OPERATION: Remove protective cap from top of can & insert can in dispenser. Secure dispenser at least 7 feet from floor or ground & at a point where air flow or wind will carry the particles throughout the area to be protected.

Contains no CFCs or Other Ozone Depleting Substances. Federal regulations prohibit CFC propellants in aerosols.

GENERAL PRECAUTIONS & USE RESTRICTIONS:

- Apply this product only as specified on this label.
- Do not contaminate food or feedstuffs.
- Do not enter or allow others to enter until vapors, mists and aerosols have dispersed, and the area has been thoroughly ventilated.
- Do not apply this product in a way that will contact workers or other persons, either directly or through drift.
- Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosol vapors and mists have dispersed.
- Remove or cover exposed food and drinking water before application.
- Remove or cover dishes, utensils, food processing equipment and food preparation surfaces, or wash them before reuse.
- For indoor food handling/processing facilities: Do not make space spray applications when facility is in operation. During space spray applications, cover food processing surfaces or clean after treatment with a suitable detergent, rinse with potable water before reuse. Do not apply more than 1 time per day.
- For metered release devices: Not for use in residential areas. Do not use in nurseries or rooms where infants, ill or aged persons are confined. Do not place metering device directly over or within 3 feet of air vents. Carefully follow directions for the dispenser unit and when replacing cans or conducting maintenance.
- For agriculture premises, commercial animal housing and equipment, direct application to non-domestic animal livestock and outdoor ornaments and lawns: Do not apply more than 1 time per day.
- When used in dairy barns or facilities: Close milk bulk tank lids to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking.
- Remove pets, birds and cover fish aquariums before application.

STORAGE & DISPOSAL: Do not contaminate water, food or feed by storage or disposal. **PESTICIDE STORAGE:** Do not store near heat or open flame. Store in cool dry area away from children. **CONTAINER DISPOSAL:** Do Not Puncture or Incinerate! IF EMPTY: Offer for recycling, if available. IF PARTLY FILLED: Call your local solid waste agency for disposal instructions.
