STOP READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

BROADCAST TREATMENT

1. Apply granules with a spreader at a rate of 0.5 lb per 1,000 sq ft.
2. Do not water in.
3. Decreased ant activity will be observed in as little as 24 hours after bait placement. Complete mound control in treated areas will occur 1-2 weeks after application.
4. Re-apply after 12 weeks (3 months) to prevent re-infestation.

SPREADER SETTINGS FOR LAWN APPLICATION

Make & Model	0.5 lb/ 1,000 sq ft	Make & Model	0.5 lb/ 1,000 sq ft
Scotts Edge Guard	4 1/4	Scotts AccuGreen 1000	5 1/2
Scotts SpeedyGreen 1000	4 1/4	Scotts AccuGreen 2000	5 1/2
Scotts SpeedyGreen 2000	4 1/4	Scotts AccuGreen 3000	5 1/2
Scotts SpeedyGreen 3000	4 1/4	Earthway 2000	8
Vigoro 4300	3	Earthway 2050	6

NOTE: These settings are approximate due to variability and wear of spreader. Check settings and calibrations on a small area before making total application.

MOUND TREATMENT *Kills the Colony*

1. Sprinkle 4 Tablespoons of bait around each mound.
2. Do not water in.
3. Decreased ant activity will be observed in as little as 24 hours after bait placement. Complete mound control will occur 1-2 weeks after application.
4. Treat new mounds as they appear.

STORAGE AND DISPOSAL

Storage: Reclose bag tightly after each use. Store in a cool, dry area, which is inaccessible to children and pets. **If Empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If Partly Filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

USE TIPS

1. For best results, apply in early spring or summer at the first sign of Fire Ant activity to prevent mounds from forming.
2. Apply in the early morning or late evening when fire ants are actively foraging. 
3. Do not apply if rain is expected within 4-6 hours.
4. Do not water or mow treated area for 24 hours after application. This will allow time for the ants to forage the bait and take it to the mound.
5. Treating the entire yard is recommended since it will eliminate foraging ants and mounds which may not be visible at the time of application.

For New Mound Formation
 try our Spectracide®
Fire Ant Killer Granules
Mound Destroyer to Kill
Queen & Colony in 24 hours.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION

Food utensils such as spoons or measuring cups must not be used for food purposes after use in measuring pesticides.

Environmental Hazards

Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.
