

**GORDON'S®**

**LOW ODOR**

# ALL-SEASON BRUSH NO-MORE®

*Controls Poison Ivy, Poison Oak,  
Tough Brush & Broadleaf Weeds*

**ACTIVE INGREDIENTS:**

2,4-D, 2-ethylhexyl ester .....	9.74%
2,4-DP-p, 2-ethylhexyl ester .....	4.78%
Dicamba .....	1.65%

**INERT INGREDIENTS:** .....

**TOTAL 100.00%**

Contains aromatic petroleum distillates.

Isomer Specific by AOAC Method.

See back panel for substatement of ingredient statement.

**KEEP OUT OF REACH OF CHILDREN  
WARNING**

See back panel for First Aid and additional Precautionary Statements.

783/4-2006

**NET CONTENTS: 32 FL. OZ. (One U.S. Quart)**

**GORDON'S®**

**LOW  
ODOR**

# **ALL-SEASON BRUSH NO-MORE®**

*Controls multiflora rose, brambles,  
cedars, locusts, poison oak, poison  
ivy, honeysuckle, thistles, kochia,  
kudzu, and many other trees, vines  
and broadleaf weeds.*

*Peel open for First Aid and  
additional Precautionary  
Statements.*

## **PRECAUTIONARY STATEMENTS**

### **Hazards to Humans and Domestic Animals**

**WARNING:** Causes substantial but temporary eye injury. Causes skin irritation. Harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing.

### **For Industrial Sites Only**

**Clothing Requirement Statements:** When mixing, loading, or applying this product, or repairing or cleaning equipment used with this product, wear eye protection (face shield or safety glasses), chemical resistant gloves, long-sleeved shirt, long pants, socks and shoes. It is recommended that safety glasses include front, brow and temple protection. For aerial applicators in an enclosed cockpit and applicators applying this product from a tractor that has a completely enclosed cab, eye protection is not required.

**Personal Hygiene Statements:** Wash hands, face and arms with soap and water as soon as possible after mixing, loading or applying this product. Wash hands, face and arms with soap and water before eating, smoking or drinking. Wash hands and arms before using toilet. After work, remove all clothing and shower using soap and water. Do not reuse clothing worn during the previous day's mixing and loading or application of this product without cleaning first. Clothing must be kept and washed separately from other household laundry. Remove saturated clothing as soon as possible and shower.

## FIRST AID

<b>If in eyes:</b>	<ul style="list-style-type: none"><li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li><li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li><li>• Call a poison control center or doctor for treatment advice.</li></ul>
<b>If on skin or clothing:</b>	<ul style="list-style-type: none"><li>• Take off contaminated clothing.</li><li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li><li>• Call a poison control center or doctor for treatment advice.</li></ul>
<b>If swallowed:</b>	<ul style="list-style-type: none"><li>• Immediately call a poison control center or doctor.</li><li>• Do not induce vomiting unless told to do so by the poison control center or doctor.</li><li>• Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.</li></ul>
<b>If inhaled:</b>	<ul style="list-style-type: none"><li>• Move person to fresh air.</li><li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.</li><li>• Call a poison control center or doctor for treatment advice.</li></ul>
<p>Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-877-800-5556 for emergency medical treatment advice.</p> <p><b>Note to Physician:</b> Contains petroleum distillates — vomiting may cause aspiration pneumonia.</p>	

**ENVIRONMENTAL HAZARDS:** This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater. When cleaning equipment, do not pour the washwater on the ground; spray or drain over a large area away from wells and other water sources. Do not apply when weather conditions favor drift from target area. Do not contaminate domestic or irrigation waters.

Most cases of groundwater contamination involving phenoxy herbicides such as 2,4-D and 2,4-DP-p have been associated with mixing/loading and disposal sites. Caution should be exercised when handling 2,4-D and 2,4-DP-p pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing or transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

If spills occur, collect the material and dispose of by following disposal instructions on this label.

**Physical or Chemical Hazards:** Do not use or store near heat or open flame.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

## STORAGE & DISPOSAL

**STORAGE:** Store in original container in a locked storage area inaccessible to children.

**PESTICIDE DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash.

**CONTAINER DISPOSAL:** Do not reuse container. Rinse thoroughly before discarding in trash.

## GENERAL INFORMATION

This herbicide is intended for spot treatments for the control of broadleaf weeds, vines, and woody plants in noncropland areas. Spot treatments include foliar applications and cut surface-stump applications. This product controls or suppresses the following brush along fencelines, along walkways, on vacant lots, on parking areas, and on farm premises.

ALL-SEASON BRUSH-NO-MORE® will provide full or partial control (suppression) of these woody species:

### BRUSH CONTROLLED

American chesnut	Cherry	Pine
Ash	Cottonwood	Poplar
Aspen	Dogwood	Sassafras
Barberry	Elm	Shortleaf pine
Birch	Gooseberry	Spruce
Blackberry	Honey locust	Sumac
Black cherry	Honeysuckle	Sycamore
Black locust	Kudzu	Trumpet creeper
Brambles	Maple	Wild plum
Buckbrush	Multiflora rose	Willow
Cedar	Oak	

### WEEDS CONTROLLED

Aster, white heath & white prairie	Beggarweed, creeping	Black medic
Bedstraw	Bindweed	Broadleaf plantain
		Buckhorn

*(continued on next page)*

**WEEDS CONTROLLED (cont.)**

Buckhorn plainain	Henbit	Red sorrel
Bull thistle	Jimsonweed	(*sheep sorrel)
Burclover	Knotweed	Shepherdspurse
Burdock, common	Kochia	Smartweed
Carpetweed	Lambsquarters	Speedwell
Chickweed, common	Lawn burweed	Spotted spurge
Chicory	Lespedeza, common	Spurge
Cinquefoil	Mallow, common	Sunflower
Clover	Matchweed	Thistle
Cocklebur	Mouseear chickweed	Trumpet creeper
Compassplant	Morningglory	Velvetleaf
Curly dock	Mustard	(*pie marker, Indian mallow)
Dandelion	Nettle	Veronica (*corn speedwell)
Dayflower	Oxalis (*yellow woodsorrel & creeping woodsorrel)	Virginia buttonweed
Deadnettle	Parsley-piert	White clover
Dock	Pennsylvania smartweed	(*Dutch clover, honeysuckle clover, white trefoil & purplewort)
Dogfennel	(*smartweed)	Wild carrot
English Daisy	Pennywort	Wild garlic
False Dandelion	(*dollarweed)	Wild geranium
(*spoiled catsear & common cat- sear)	Peppergrass	Wild lettuce
Field bindweed	Pepperweed	Wild mustard
(*morningglory & creeping jenny)	Pigweed	Wild onion
Field oxeye-daisy	Pineappleweed	Wild strawberry
(*creeping oxeye)	Plantain	Wild violet
Filaree, whitestem & redstem	Poison ivy	Yarrow
Florida pusley	Poison oak	Yellow rocket
Ground ivy	Prostrate knotweed	
Groundsel	(*knotweed)	
Hawkweed	Puncturevine	
Healall	Purslane	
	Ragweed	*Synonyms

## FOLIAR TREATMENTS

Foliar applications for mixed brush are effective from full leaf expansion in the spring until leaf drop in the fall. Schedule applications during warm weather when the brush and broadleaf weeds are actively growing. Reduced performance may result with fall treatments following a frost.

Applications should be made on a spray-to-wet basis. All leaves, stems, shoots (suckers) should be thoroughly wetted to the ground. Backpack, knapsack, and hand pump sprayers are suitable for this method.

Mix 3.0-5.0 fl. oz. of product in 1.0 gallon of water or prepare a 2.0-4.0% (vol./vol.) spray solution. Or, the equivalent measure is 6-10 tablespoons of product per 1.0 gallon of water. Use the higher dosage rates for larger plants, dense growth, or adverse conditions. Seasonal: The maximum seasonal application rate to non-crop sites is 4 pounds 2,4-D acid equivalent per application site. Refer to Table 1 for additional instructions for spray preparations with water.

**Table 1.** Mixing instructions for preparing 1 to 3 gallons of spray solution with water for foliar applications.

Spray Solution, Gallons	Amounts of product required for:		
	2.0%	3.0%	4.0%
1.0	3 fl. oz.	4 fl. oz.	5 fl. oz.
2.0	5 fl. oz.	8 fl. oz.	10 fl. oz.
3.0	8 fl. oz.	12 fl. oz.	16 fl. oz.

Equal measures: 1.0 fl. oz. = 2 tablespoons of product.  
*Food utensils such as measuring spoons or cups must not be used for food purposes after use with pesticides.*

Allow 5-7 days after application before cutting or removal. Additional applications may be needed to control regrowth on resistant species.

## CUT SURFACE – STUMP TREATMENTS

The cut surface treatment is appropriate for tree stumps with diameters larger than 3-4 inches. Cut surface treatments are effective throughout the year except when snow, ice, or water prevents complete spray coverage.

The whole stump should be sprayed with this product soon after the trees are cut. Spray thoroughly the cut surfaces, bark, and the exposed roots. Treat the entire circumference of the tree stump. Drench until runoff to the soil is noticed. Backpack, knapsack, and hand pump sprayers are suitable equipment.

Mix 20.0 fl. oz. of product with 1.0 gallon of water. Or, the equivalent measures are 1¼ pints (2½ cups) of product per 1.0 gallon of water. Mineral oil, kerosene, or diesel oil (No. 1 or No. 2 fuel oil) may be substituted for water. Refer to Table 2 for additional instructions for spray preparations.

**Table 2.** Mixing instructions for preparing 1.0 to 1.6 gallons of spray solution for cut surface applications.

Spray Solution, Gallons	Amounts of product required:		
	fl. oz.	pints	cups
1.0	20	1¼	2½
1.6	32	2	4
Equal measures: 1.0 quart = 32 fl. oz. = 2 pints = 4 cups			

## LIMITED WARRANTY AND DISCLAIMER

The manufacturer warrants only that the chemical composition of this product conforms to the ingredient statement given on the label, and that the product is reasonably suited for the labeled use when applied according to the Directions for Use.

**THE MANUFACTURER NEITHER MAKES NOR INTENDS ANY OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE EXPRESSLY DISCLAIMED.** This limited warranty does not extend to the use of the product inconsistent with label instructions, warnings or cautions, or to use of the product under abnormal conditions such as drought, excessive rainfall, tornadoes, hurricanes, etc. These factors are beyond the control of the manufacturer or the seller. Any damages arising from a breach of the manufacturer's warranty shall be limited to direct damages, and shall not include indirect or consequential damages such as loss of profits or values, except as otherwise provided by law.

The terms of this Limited Warranty and Disclaimer cannot be varied by any written or verbal statements or agreements. No employee or agent of the seller is authorized to vary or exceed the terms of this Limited Warranty and Disclaimer in any manner.
