**PRECAUTIONARY STATEMENT**  
**KEEP OUT OF REACH OF CHILDREN**  
**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**  
**CAUTION:** Harmful if absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

**STATEMENT OF PRACTICAL TREATMENT**  
**IF ON SKIN:** Wash with plenty of soap and water. Get medical attention. **IF IN EYES:** Flush with plenty of water. Call physician if irritation persists.

**ENVIRONMENTAL HAZARDS:** Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

**BEE HAZARD:** This product is toxic to bees exposed to direct treatment. Do not apply this product while bees are actively visiting the treatment area.

**PHYSICAL AND CHEMICAL HAZARDS:** Do not use or store near heat or open flame.

**DIRECTIONS FOR USE:** IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING. Do not apply this product through any type of irrigation system.

**STORAGE AND DISPOSAL:** Pesticide Storage: Keep in original container. Store in a

dry place away from direct sunlight, feed or foodstuffs. Keep container tightly sealed when not in use. Do not store below 40°F (4°C).

**Pesticide and Container Disposal:** Do not reuse empty container. Securely wrap original container in several layers of newspaper and discard in trash.

**General Information:**

- Kills eggs, larvae, and adult insects.
- Prevents and controls black spot on roses, anthracnose, rust and powdery mildew.
- Shake well before using.
- For best results, maintain constant agitation in spray equipment.
- For optimal performance, do not mix with cold water (less than 45°F).
- Neem Concentrate is most effective when applied in early to mid-morning or late afternoon when adult pests, such as whiteflies are normally sedentary on the undersides of the foliage.
- Spray solutions should be used within several hours of preparation for maximum effectiveness. Do not store diluted solution for later use.
- Do not apply to known sensitive plant species, such as impatiens flowers, fuchsia flowers, hibiscus flowers, some rose flowers, ornamental olive trees, or some carnation varieties without

prent testing.

- When used in conjunction with beneficial insects, it is recommended that a small trial be conducted to assure compatibility before using on a large scale.
- As with other oil-based products, care should be exercised in timing applications to early morning/late evening to minimize the potential for leaf burn.
- Use with care on plants with tender tissue. Check for leaf burn in scale trials prior to use. Keep unprotected persons out of treated area until sprays have dried.

**HOMEOWNER USE DIRECTIONS:**

**General Information:**

- Do not add adjuvants (spreaders, stickers, extenders, etc.) to Neem Concentrate.
- Stops powdery mildew in 24 hours.

**FUNGICIDE USE:** For use on FRUITS, NUTS, VEGETABLES, HERBS, SPICES, ROSES, HOUSEPLANTS, FLOWERS, TREES, SHRUBS

**APPLICATION INSTRUCTIONS:** Neem Concentrate is an effective fungicide for the prevention and control of various fungal diseases including powdery mildew, black spot, downy mildew, anthracnose, rust, leaf spot, botrytis, needle rust, scab and flower, twig, tip blight, and alternaria. As a preventative, Neem Concentrate should be applied on a 7 to 14 day schedule until disease pressure is eliminated. Then continue spraying on a 14 day schedule to prevent the disease from reoccurring. To

prevent rust leaf spot diseases, anthracnose and scab, begin applications at the first sign of spring budding. To prevent powdery mildew, apply in mid-summer or when disease is first detected. Applications should continue until disease pressure no longer exists.

**MIXING INSTRUCTIONS:** Mix Neem Concentrate at the rate of 2 tablespoons (1 ounce) per gallon of water. Thoroughly mix solution and spray all plant surfaces (including undersides of leaves) until completely wet. Frequently mix solution as you spray.

**INSECTICIDE/MITICIDE USE:** For use on FRUITS, VEGETABLES, HERBS, SPICES, ROSES, HOUSEPLANTS, FLOWERS, TREES, SHRUBS

**APPLICATION INSTRUCTIONS:** Apply Neem Concentrate at first sign of insects/mites. For control of aphids, spider mites, scale, whiteflies, beetles, leafrollers, and other insect pests, Neem Concentrate is most effective when applied every 7 to 14 days. For heavy insect population, spray on a 7 day schedule.

**MIXING INSTRUCTIONS:** Mix Neem Concentrate at the rate of 2 tablespoons (1 ounce) per gallon of water. Thoroughly mix solution and spray all plant surfaces (including undersides of leaves) until completely wet. Frequently mix solution as you spray.
