ROOT FORCE™

Foaming Root Destroyer In Water Soluble Bags

Active Ingredient: Dichlobenil [2,6-dichlorobenzonitrile]: 0.55%
Inert Ingredients: 99.45%
Total: 100.00%

KEEP OUT OF REACH OF CHILDREN.

CAUTION
READ ENTIRE LABEL BEFORE USING.
SEE SIDE PANEL FOR PRECAUTIONARY STATEMENTS.

E.P.A. Registration No. 7687-3

E.P.A. Est. No. 065387-AR-001

Net Wt. 1 lb. (454 g); (2) 8 oz.-bags

DO NOT OPEN BAGS

NEW

- ▶ *No Measuring! No Mixing! No Mess!*
- ▶ *Prevents and Clears Root-Blocked Sewer Lines*
- ▶ *Does Not Contain Copper*

TO OPEN: PRY OFF CAP WITH TOOL OR COIN.

Hercules BREAK-THRU ROOT FORCE™ is a blend of high foaming surfactants, fillers and the active ingredient dichlobenil, which kills roots and prevents the growth of new roots. When used as prescribed in DIRECTIONS, its foaming system acts as a vehicle, releasing a chemical herbicide, which clings to and is absorbed by infiltrating root tips. This kills the roots, which then decompose and are washed away without injury to the main tree or shrub. Because the product also clings to pipe surfaces, new root growth from outside the pipe are inhibited. Hercules BREAK-THRU ROOT FORCE can be used in lines leading to cesspools and septic tanks when used as directed.

This product is contained in convenient water-soluble bags to eliminate exposure to the contents of the package. IF THE BAG IS BROKEN OR LEAKING – PLEASE READ PRECAUTIONARY STATEMENTS.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING. BEFORE USING, READ DIRECTIONS AND ALL PRECAUTIONARY STATEMENTS ON PACKAGE LABEL.

Residential Sewer Line – Partial Stoppage: To use as a “preventive” and ensure root-free drainage lines, use an 8 oz. bag every three weeks during the growing season between March and August and follow with an 8 oz. bag every eight weeks between September and March. If drainage is very slow, use an 8 oz. application twice a week until improvement is noticeable. The soluble bags are dropped (unopened) directly into toilet bowl. The water soluble bags will soften, dissolve and release the chemicals into the water. 2-3 minutes after the addition flush the contents. Stirring will accelerate the dissolving process. The mechanical flushing action will activate the foaming surfactants and carry the active ingredients throughout the full dimensions of the sewer pipe. Restrict water usage for 6-8 hours after flushing. Only apply through toilet. The water soluble bags are there for your protection. If the bag is broken, empty contents into toilet, rinse container with water and pour into toilet and flush.

Complete Stoppages: If root growth is severe and there is complete blockage with no flow, mechanical removal with a snake or sewer rod may be required.

When using this product indoor, the exhaust fan in the bathroom must be operating during application. If the fan is not available, the window must be open during application.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION (IF BAG IS BROKEN):

Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing dust. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For assistance from Hercules, call 1-800-221-9330.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not apply directly to water except as specified on label. Do not apply to areas where surface water is present or to intertidal areas below the mean high water mark. **Do not use near well or drinking water. Do not contaminate water when disposing of container or materials.**

STORAGE AND DISPOSAL

Store in original container and keep in locked storage area. Do not contaminate water, food or feed by storage or disposal. To dispose of container, triple rinse and dispose of at local recycling (if allowable) or sanitary landfill. For accidentally opened bags, dispose of contents into toilet and rinse container thoroughly and dispose of water into toilet.
