

# PRO GUARD™ ALGAE PREDATOR™

**A non-staining pool algacide  
for all types of algae**

**FOR PROFESSIONAL SERVICE ONLY.  
NOT FOR RETAIL SALE**

**ACTIVE INGREDIENT:**

Copper (metallic)\* . . . . . 3.3%

**OTHER INGREDIENTS\*\*:** . . . . . 96.7%

**TOTAL:** . . . . . 100.0%

\*Derived from copper sulfate pentahydrate

\*\*Contains polymeric polyacrylate and gluconate stabilizing agents

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

(See back panel for additional precautionary statements.)

**FIRST AID: IF CONTACT WITH EYE OCCURS:** Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention. **IF SWALLOWED:** Call a doctor or get medical attention. Do not induce vomiting or give anything by mouth to an unconscious person. Drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician or poison control center immediately. **IF CONTACT WITH SKIN:** Wash with plenty of soap and water. If irritation develops, get medical attention.

**IN CASE OF A MEDICAL EMERGENCY, CALL 1-877-800-5553.**

**Treatment of Visible Algae**

This product is a highly effective, patented, non-staining pool algacide that kills all types of algae in swimming pools. This product is especially recommended for killing green, blue-green (frequently called black or spot algae) and mustard algae growths. This product is formulated for use in chlorine or bromine sanitized swimming pools of all surface and filter types.

**IMPORTANT NOTES: 1)** Do not use in pools sanitized with biguanides or pools treated with hydrogen peroxide. **2)** Prior to the initial application of this product, test pool water for the presence of metals. If metals are present, apply stain and scale inhibitor (chelating agent) per label directions. **3)** In use dilution, this product is non-staining to pool surfaces and equipment.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

**PRIOR TO APPLICATION:** Ensure all equipment is working properly. If necessary, clean the filter system, adjust pH between 7.2-7.6, and establish a minimum level of 30-40 ppm of cyanuric acid in chlorine sanitized pools. Vacuum leaves and any other foreign debris from pool. If metals testing indicates a need to use a stain and scale inhibitor, apply that product per label directions. Brush visible algae thoroughly from the pool's surface with a surface-compatible brush. Establish and maintain proper chlorine or bromine levels.

**TREATMENT OF VISIBLE ALGAE:** Add 1 lb. of granular calcium hypochlorite per 10,000 gallons of pool water or 1 lb. of granular lithium hypochlorite per 6,000 gallons of pool water. Follow application directions on these products. Allow to circulate for 1 hour. With pump and filter operating, apply 16 ounces of this product per 10,000 gallons of pool water directly to the pool water in areas of heaviest algae growth. Continuously circulate pool water for the next 24 hours. Afterwards, thoroughly brush pool surfaces. In cases of persistent algae, repeat brushing and application after 2-4 days. A filter aid may be used 3 days after treatment to enhance filter efficiency.

**TO DETERMINE POOL CAPACITY: Rectangular Pools** - Length times width times average depth (in feet) times 7.5 equals gallons. **Round and Oval Pools** - Long diameter times short diameter times average depth (in feet) times 5.9 equals gallons.

**STORAGE AND DISPOSAL:** Keep this product in its original tightly closed container when not in use. Store in a cool, dry, well ventilated area. Do not contaminate food or feed by storage or disposal. **PRODUCT DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash. **CONTAINER DISPOSAL:** Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS: CAUTION:** Harmful if swallowed. Causes moderate, but temporary, eye irritation. Avoid contact with eyes or clothing. Wear protective eye wear (safety glasses). Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

**PHYSICAL OR CHEMICAL HAZARDS:** Do not mix with other chemicals.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

**NOTE:** Buyer assumes all responsibility for safety and use not in accordance with directions. Metals from source water, ionizers or poorly sequestered algacides have the potential to stain pool surfaces. Treat these problems with an appropriate stain and scale inhibitor (chelating agent) before using this product.
