**SWIMMING POOL ALGAE PREVENTATIVE**

BioGuard® has a wide variety of products that prevent specific pool situations. These products are designated as "Inhibit".

This economical product is formulated to complement swimming pool water being treated with chlorine or bromine based systems. It is effective in preventing most common algae growth and aids in maintaining pool water clarity. This product may foam and therefore should not be used for spa treatment or in pools with attached spas, water features, or jetted returns.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Ensure all pool equipment is working properly. Clean or backwash filter following manufacturer's directions. Adjust pH to between 7.2-7.6. In outdoor chlorine treated pools, add stabilizer to establish a minimum stabilizer level of 30-40 ppm to reduce the degradative effects of sunlight upon the chlorine residual. Check for metals and if present add a stain and scale inhibitor to prevent staining of pool surface due to metal. Maintain sanitizer residual in accordance with label directions found on your sanitizer. When using other products as outlined in directions for this product, always follow directions on those products.

**INITIAL APPLICATION:** For an initial application, pour directly into pool at a rate of 13 fluid ounces of this product per 5,000 gallons of water (this will provide 2 ppm of this product in the water). More rapid distribution will be achieved by pouring a portion of the specified amount into several areas of the pool until all of the required quantity has been added. Recirculation will assure rapid dispersion. Wait at least 15 minutes after application before entering pool.

**MAINTENANCE:** Pour directly into pool at a rate of 3.2 fluid ounces per 5,000 gallons of water every 5-7 days depending on weather and use factors (this will provide 0.5 ppm of this product in the water). After each rain of consequence, add 3.2 fluid ounces per 5,000 gallons of water. Even when the pool may not be in use for periods of time, algicide additions should be made since a heavy accumulation of algae growth may be difficult to remove. The appropriate amount of this product should be added by pouring a portion of the specified amount into several areas of the pool until the required quantity has been added. Recirculation will assure rapid dispersion. Wait at least 15 minutes after application before entering pool.

**STORAGE AND DISPOSAL:** Keep this product in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. **CONTAINER DISPOSAL:** Non-refillable container.

Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.

**PRECAUTIONARY STATEMENTS:**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS:** KEEP OUT OF REACH OF CHILDREN. DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or safety glasses, protective clothing, and rubber gloves when handling this product. Avoid breathing fumes. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

**FIRST AID: IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

**Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5553.**

**Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage.

**PHYSICAL OR CHEMICAL HAZARDS:** Do not mix with other chemicals.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

**NOTE:** Buyer assumes all responsibility for safety and use not in accordance with directions
