SWIMMING POOL ALGICIDE

BioGuard® has a wide variety of products that prevent specific pool situations. These products are designated as "Inhibit".

26 oz

This product is used to control and prevent the growth of algae in swimming pools. This product may be used in systems sanitized with chlorinating or brominating products. This product prevents green algae. Use with all pool surface types. This product may foam and therefore must not be used for spa treatment or in pools with attached spas, water features, or jetted returns.

24 oz

It is effective against growth of algae and aids in maintaining pool water clarity and sparkle. This algicide is compatible with most chemicals normally used in swimming pool maintenance; however, in its concentrated form, this chemical must not come in contact with high concentrations of chlorine. DO NOT MIX THIS ALGICIDE AND CHLORINATING PRODUCTS TOGETHER before adding to the pool. These chemicals must be handled separately.

22 oz

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Please read entire label and use strictly in accordance with precautionary statements and directions.

20 oz

APPLICATION FOR SWIMMING POOLS: Ensure all pool equipment is working properly. Clean or backwash filter following manufacturer's directions. Adjust pH to between 7.2-7.6. In outdoor chlorinated pools, add stabilizer to establish a minimum level of 30-40 ppm to reduce the degradative effects of sunlight upon the chlorine residual. Check for metals and if present add a stain and scale inhibitor to prevent staining of pool surface due to metal. Maintain sanitizer residual in accordance with label directions found on your sanitizer of choice. This product is effective in controlling the growth of green and blue-green algae. When using other products as outlined in directions for this product, always follow directions on those products.

18 oz

INITIAL APPLICATION: For an initial application, pour directly into deep end of pool at a rate of 16 fl. oz. of this product per 25,000 gallons of water (2 ppm).

16 oz

MAINTENANCE: Pour directly into deep end of pool at a rate of 4 fl. oz. of this product per 25,000 gallons of water (0.5 ppm) every 5-7 days depending on weather and use factors. After each rain of consequence, add 4 fl. oz. of this product per 25,000 gallons of water. Even when the pool may not be in use for periods of time, algicide additions must be made since a heavy accumulation of algae growth is difficult to remove.

14 oz

Recirculation accomplished by running the filter will assure rapid dispersion of product. Wait at least 15 minutes after application before entering pool.

12 oz

STORAGE AND DISPOSAL: Store in original container and place in locked storage area. Keep from freezing. Do not contaminate water, food, or feed by storage or disposal. Small spills may be mopped up or flushed away with water or

10 oz

absorbed on some absorbent material. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Clean container promptly after emptying. Wrap container and put in trash or offer for recycling if available.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Keep Out of Reach of Children. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed. Do not get into eyes, on skin or on clothing. Wear protective eyewear (goggles, face shield, or safety glasses), rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash clothing before reuse.

FIRST AID: IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5553.

PHYSICAL OR CHEMICAL HAZARDS: Do not use or store near heat or open flame. Do not mix with any other chemicals.

ENVIRONMENTAL HAZARD: This product is toxic to fish.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
